

CURRICULUM VITAE
July 2018

JOHN L. GRIFFITH, PhD

Bouvé College of Health Sciences
Northeastern University

Bouvé College of Health Sciences
Northeastern University
360 Huntington Avenue
Boston, MA. 02115
Telephone: (617) 373-7516

EDUCATION

Boston University, Boston, MA	Ph.D.	Mathematics	1994
Tufts University, Medford, MA	M.S.	Mathematics	1982
Claremont Men's College, Claremont, CA.	B.A.		1976

ACADEMIC APPOINTMENTS

Bouvé College of Health Sciences, Northeastern University
2012 – Present Professor, Department of Health Sciences
2012 – 2017 Professor, Department of Applied Psychology

Tufts Sackler Graduate School of Biomedical Sciences
2002 - 2012 Associate Professor of Medicine

Tufts University School of Medicine
2012 - Present Adjunct Associate Professor of Medicine
1999 - 2012 Associate Professor of Medicine
1996 - 2012 Assistant Professor of Family Medicine and Community Health
1993 - 1999 Assistant Professor of Medicine

Tufts University School of Veterinary Medicine
1995 Quantitative Course Director, Animals and Public Policy

Boston University
1982-1990 Lecturer, Department of Mathematics

Tufts University
1980-1982 Lecturer, Department of Mathematics

PROFESSIONAL ACTIVITIES

Select Hospital and University Appointments

Director, Biostatistics Core

Bouvé College of Health Sciences, Northeastern University, 2017 to present

Associate Dean for Research

Bouvé College of Health Sciences, Northeastern University, 2012 to 2017

Director, Biostatistics Service Center

Bouvé College of Health Sciences, Northeastern University, 2014 to present

Interim co-Director, The Institute on Urban Health Research and Practice (IUHRP)

Bouvé College of Health Sciences, Northeastern University, 2014 to 2015

Biostatistics Core, Tufts MC Cancer Center, *Director*

Tufts Medical Center, 2009 to 2012

Human Institutional Review Board

Tufts University / Tufts Medical Center, 2000 to 2011

Special and Scientific Staff

Tufts Medical Center, 2000 to 2012

Center for Cardiovascular Health Services Research, *Senior Statistician*

Tufts Medical Center, 1988 to 2012

Tufts Clinical and Translational Science Institute, *Associate Director*

Tufts University School of Medicine, 2008 to 2011

The Research Design Center (formerly the Design and Data Resource Center), *Director*

Tufts Medical Center, 2006 to 2008

Tufts Clinical and Translational Science Institute, 2008 to 2011

Clinical Research Portal, *co-Director*

Tufts Clinical and Translational Science Institute, 2008 to 2011

Clinical Research Scientific Review Committee

Tufts Medical Center, 2003 to 2008

General Clinical Research Center, *Statistical Director*

Tufts Medical Center, 2001 to 2006

Biostatistics Research Center, *Director*

Tufts Medical Center, 1989 to 2006

Select Faculty Committee Memberships

2017 – 2018	Bouvé College <i>Chair, Faculty Recruitment Committee</i>
2017 – 2018	Bouvé College <i>Chair, Modular Class Working Group</i>
2015 - 2016	Northeastern University <i>IT Strategic Planning Committee</i>
2013 - 2017	Northeastern University <i>Research Computing Advisory Committee</i>
2012 - 2017	Bouvé College of Health Sciences <i>Liaison, Bouvé Research Committee</i>
2011 - 2012	Tufts Sackler School of Biomedical Sciences, CTS program <i>Admissions Committee</i>
2011 - 2012	Tufts Sackler School of Biomedical Sciences, CTS program <i>PhD Qualifying Exam Committee</i>
1999 - 2012	Tufts Sackler School of Biomedical Sciences, CTS Program <i>Faculty Advisory Committee</i>
1999 - 2012	Tufts Medical Center, Fellowship in Clinical Care Research <i>Faculty Advisory Committee</i>
2011	Northeastern University, Department of Health Sciences <i>Faculty Recruitment Committee</i>
2009 - 2010	Tufts University <i>Research IT Steering Committee</i>
2004 - 2010	Institute for Clinical Research and Health Policy Studies <i>Infrastructure Committee, Chair</i>
2003 - 2008	Tufts Medical Center <i>Research Information Services Committee, Chair</i>
1999 - 2001	Tufts University Sackler School of Biomedical Sciences, Clinical Research Program <i>PhD Qualifying Exam Committee</i>
1995 - 2001	New England Medical Center, Fellowship in Clinical Care Research <i>Admissions Committee</i>

Journal Reviewer

Clinical Infectious Disease, *Statistical Editor 2003-2006*

American Heart Journal

Circulation

Journal of Clinical Pharmacology

Journal of Women's Health

Medical Decision Making

Statistics in Medicine

Trials

Scientific Review Committees

- 2017 Canadian Institutes of Health Research (CIHR)
Personalized Health - Predictive Analytic Models Peer Review Committee
- 2016 - 2018 Charles A. King Trust Postdoctoral Research Fellowship Program
Scientific Review Committee: Clinical/Health Services
- 2003 - 2006 Scientific Review and Evaluation Board for Health Services Research.
Department of Veterans Affairs.
- 1995 Medical Treatment Effectiveness Research: Port II Special Emphasis Panel.
Agency for Health Care Policy and Research (AHCPR).
- 1994 Medical Treatment Effectiveness Research: Port II Special Emphasis Panel.
Agency for Health Care Policy and Research (AHCPR)

Data Safety Monitoring Boards

- 2009 - 2011 Data Safety Monitoring Board (DSMB), Member
- *Lactobacillus rhamnosus* GG for the Elimination of Vancomycin-Resistant Enterococcus Colonization. R21AT001892, U01AT001892. PI: D. Snyderman.
- 2010 - 2015 Data Safety Monitoring Board (DSMB), Member
- CARE+ Corrections: Technology for Jail HIV/HCV Testing, Linkage, and Care (TLC). R01DA03747. PI: C. Beckwith.
- 2012 - 2014 Data Safety Monitoring Board (DSMB), Member
U01AT002133, U01AT002388, U01AT002952. PI: P. Hibberd.
- Open Label Study to Evaluate the Safety of Lactobacillus Rhamnosus GG ATCC 53103 in Elderly Subjects
 - Double Blind Randomized Controlled Trial to Evaluate the Safety of Lactobacillus Rhamnosus GG ATCC 53103 (LGG) vs. Placebo in Elderly Subjects Receiving Trivalent Inactivated Influenza Vaccine
 - Double Blind Randomized Controlled Trial to Evaluate the Safety of Lactobacillus Rhamnosus GG ATCC 53103 (LGG) vs. Placebo in Elderly Subjects Receiving Live Attenuated Influenza Vaccine

Selected Workshops and Presentations (since 2011)

- “Data Analyses Using SAS”
Northeastern University, Biostatistics Service Center, March 2017
- “The Simplicity Behind Complexity Workshop Series: A workshop on applied multilevel modeling”
Northeastern University, Biostatistics Service Center, November 2016
- “Implementing Adaptive Designs in Clinical Research”
Northeastern University Center for Self Care & Health, February 2015
- “Translating Science to Health Care: the Use of Predictive Models in Decision Making”
Department of Quantitative Health Sciences, University of Massachusetts Medical School, February 2014
- “Modeling using SAS”
Boston Public Health Commission, May 2013
- “Research at the Bouvé College of Health Sciences”
Bouvé College Honors Program, November 2012
- “Exploratory Data Analysis”
Boston Public Health Commission, April 2012
- “Analysis of Complex Survey Data in SAS”
Boston Public Health Commission, January 2012
- “Why Studies Fail: Bias & Confounding”
Lahey Clinic, November 2011
- “How Many Subjects do I Need for My Study?”
Tufts Medical Center (Infectious Disease), August 2011
- “Interactions and Confounding”
Boston Public Health Commission, October 2011
- “Sample Size and Non-Inferiority Testing”
Clinical and Translational Science Program, October 2011
- “Pitfalls in Statistical Analyses”
St. Elizabeth’s Medical Center (Psychiatry), August 2011
- “Exploratory Data Analysis”
St. Elizabeth’s Medical Center (Psychiatry), August 2011
- “Translational Research”
New England Baptist Hospital, Keynote address Research Day, June 2011
- “Statistical review & Evaluating Medical Journals”
Tufts Medical Center (Radiation Oncology), June 2011
- “Analyzing Complex Survey Data in SAS”
Boston Public Health Commission, June 2011
- “Observational Studies”
Cummings School of Veterinary Medicine, June 2011
- “Pitfalls in Statistical Analyses”
Tufts Medical Center (Radiation Oncology), June 2011

“Steps of an analysis”

Lahey Clinic, April 2011

“Regression Analyses”

St. Elizabeth’s Medical Center, April 2011

“Pitfalls in Statistical Analysis”

St. Elizabeth’s Medical Center, March 2011

“Adaptive Randomization”

Tufts Medical Center (Biostatistics Research Center), March 2011

“Exploratory Data Analysis”

Lahey Clinic, February 2011

“Measures of Association”

Tufts Medical Center, 2011

Workshops at National Meetings

“Testing Logistic Regression Predictive Instruments: Different Measures for Different Applications”. HP Selker, JL Griffith, RB D’Agostino. *12th Annual Meeting of the Society of General Internal Medicine, Washington DC. May 4, 1989.*

“Logistic Regression Predictive Instruments: Different Measures for Different Applications”. HP Selker, JL Griffith, RB D’Agostino. *13th Annual Meeting of the Society of General Internal Medicine, Washington DC. May 3, 1990.*

“Techniques for Assessing the Performance of Logistic Regression Clinical Predictive Instruments”. HP Selker, JL Griffith, RB D’Agostino. *15th Annual Meeting of the Society of General Internal Medicine, Washington DC. April 30, 1992.*

“Combining Data from Multiple Clinical Studies for Medical Effectiveness and Clinical Research”. HP Selker, JL Griffith, JR Beshansky, JD Scott. *16th Annual Meeting of the Society of General Internal Medicine, Washington DC. April 29, 1993.*

“Comparison of Using Logistic Regression, Classification Trees, and Neural Networks for Predicting a Medical Outcome”. JL Griffith, HP Selker. *17th Annual Meeting of the Society of General Internal Medicine, Washington DC. April 28, 1994.*

“Advanced Construction of Predictive Models for Medical Outcomes”. JL Griffith, HP Selker, C Schmid. *19th Annual Meeting of the Society of General Internal Medicine, Washington DC. May 2, 1996.*

“Advanced Construction of Predictive Models for Medical Outcomes”. JL Griffith, HP Selker, C Schmid. *20th Annual Meeting of the Society of General Internal Medicine, Washington DC. May 3, 1997.*

“Advanced Construction of Predictive Models for Medical Outcomes”. HP Selker, JL Griffith. *21st Annual Meeting of the Society of General Internal Medicine, Chicago, April 23, 1998.*

International Workshops

Statistical Coordinator, "ADDR Workshop on Multivariable Analysis". The Applied Diarrheal Disease Research Project (ADDR). *Funded by U.S. Agency for International Development. Islamabad, Pakistan. May 11-18, 1994.*

Teaching Experience (since Fall 2013)

- Fall 2017 Advanced Methods in Biostatistics (PHTH 6440)
Northeastern University Bouvé College Department of Health Sciences
Experimental Design and Biostatistics (PHSC 6214)
Northeastern University Bouvé College School of Pharmacy
- Spring 2017 Analysis of Messy Data (PHTH 6460)
Northeastern University Bouvé College Department of Health Sciences
Experimental Design and Biostatistics (PHSC 6214 online)
Northeastern University Bouvé College School of Pharmacy
- Fall 2016 Experimental Design and Biostatistics (PHSC 6214)
Northeastern University Bouvé College School of Pharmacy
- Spring 2016 Experimental Design and Biostatistics (PHSC 6214)
Northeastern University Bouvé College School of Pharmacy
Experimental Design and Biostatistics (PHSC 6214 - online)
Northeastern University Bouvé College School of Pharmacy
- Fall 2015 Advanced Methods in Biostatistics (PHTH6440)
Northeastern University Bouvé College Department of Health Sciences
Experimental Design and Biostatistics (PHSC 6214)
Northeastern University Bouvé College School of Pharmacy
- Spring 2015 Experimental Design and Biostatistics (PHSC 6214)
Northeastern University Bouvé College School of Pharmacy
Research Methodology and Biostatistics (PHMD 3450), co-instructor
Northeastern University Bouvé College School of Pharmacy
- Fall 2014 Advanced Methods in Biostatistics (PHTH6440)
Northeastern University Bouvé College Department of Health Sciences
Experimental Design and Biostatistics (PHSC 6214)
Northeastern University Bouvé College School of Pharmacy
- Spring 2014 Experimental Design and Biostatistics (PHSC 6214)
Northeastern University Bouvé College School of Pharmacy
Research Methodology and Biostatistics (PHMD 3450), co-instructor
Northeastern University Bouvé College School of Pharmacy
- Fall 2013 Experimental Design and Biostatistics (PHSC 6214), co-instructor
Northeastern University Bouvé College School of Pharmacy

Doctoral Committees and Mentoring

Completed doctoral thesis committee member

1. Daniel David (PhD, Northeastern University). Cognitive Impairment and Heart Failure: Identifying Factors that Diminish Self-Care, 2016.
2. Kerry Nolte (PhD, Northeastern University). Protecting Themselves: Toward an Understanding Black Women's Approaches to Encouraging A Male Partner to Test for HIV, May 2016.
3. Aziza Jamal-Allial (PhD, Northeastern University, 2013). Serum 25(OH)D Concentrations & Cardiovascular Disease Risk Associations among Older Puerto Ricans, May 2013.
4. Navdeep Tangri (PhD Clinical & Translational Science, Sackler School of Biomedical Sciences). Risk Prediction for Patients with Chronic Kidney Disease, 2012.
5. Jennifer Layne (PhD Tufts University Friedman School of Nutrition Science and Policy). Dissemination of and adherence to a community-based strength training program for older adults, 2007.
6. David Mkaya Mwamburi (PhD Clinical Research, Tufts Sackler School of Biomedical Sciences). Cost-Effectiveness of MDOT strategies for HAART and geographic translation modeling across disparate populations: from Providence to Cape Town, 2006.
7. Adam Parker (PhD Statistics, Boston University). The performance of classification trees with data missing completely at random, 1999.

Active doctoral thesis committee\mentoring

1. Elizabeth Beatriz (PhD candidate in Population Health, Northeastern University). Influence of multi-level factors on children's health: Through the lens of childhood mortality and neglect.
2. Meredith Brooks (PhD candidate in Population Health, Northeastern University). Handling biases from violated assumptions in survival analyses for multidrug-resistant tuberculosis cohort data.
3. Mara Eyllon (PhD candidate in Population Health, Northeastern University). Schools, Social Reproduction, and Disparities in Depressive Symptoms: Investigating the influence of school on depressive symptomatology and narratives of resilience.
4. Stephen Flaherty (PhD candidate in Population Health, Northeastern University). Diagnostic Imaging in Massachusetts: Trends in Utilization and Determinants of Inappropriate Imaging and Self-Referral
5. Casey Garvey (PhD candidate in Nursing, Northeastern University). The effects of illness perception, stigmatization, and symptoms of PTSD on antiviral usage among United States military veterans with Hepatitis C.
6. Kristin Elizabeth Lees (PhD candidate in Population Health, Northeastern University). Elder Mistreatment: An examination of formal and informal responses to a growing public health concern.
7. Brianne Mui (PhD candidate in Population Health, Northeastern University). HIV in US Nursing Homes.
8. Ashwini Ranade (PhD candidate in Population Health, Northeastern University). Utilization of Dental Services: Studying Determinants of Access to Oral Healthcare.

9. Kathryn Robinson (PhD candidate in Nursing, Northeastern University). The Effects of Uncertainty, Self-Efficacy, and Psychological Distress with Genetic Testing Decisions among First-Degree Relatives of Hereditary Breast and Ovarian Cancer Syndrome.
10. Renee Wurth (PhD candidate in Population Health, Northeastern University). Diet and Environmental Impacts on the Health of Vulnerable Puerto Ricans.

Selected Research Experience

Statistical Consulting (J Griffith)

Agency: Boston Public Health Commission

Dates: 2013 - 2017

Role: Consultant

Shared Decision Making and Renal Supportative Care (L. Cohen)

Agency: PCORI

Dates: 2013 - 2016

Role: Co-investigator. Director, Data Coordinating Center

The Meaning and Impact of Limited Literacy for People with Serious Mental Illness (A. Lincoln)

Agency: NIMH (R01 MH096707)

Date: 2012 - 2015

Role: Biostatistician

Boston Puerto Rican Health Study – CVD Risk Factors (K. Tucker)

Agency: NHLBI (P50 HL 105185)

Dates: 2010 - 2015

Role: Site Principal Investigator; Director Statistical Core

The Risk of Paradoxical Embolism (ROPE) Study (D. Kent)

Agency: NINDS (R01 NS 062153)

Dates: 2009 - 2014

Role: Biostatistician

Tufts Clinical and Translational Science Institute (H. Selker)

Agency: NCRR (UL1 RR 025752)

Dates: 2008 - 2013

Role: Co-Principal Investigator

Data Coordinating Center: The IMMEDIATE Trial (R. D'Agostino)

Agency: NHLBI (R01 HL 077826)

Dates: 2004 - 2010

Role: Co-Principal Investigator

Nutrition, Stress and Bone in Older Puerto Ricans (K. Tucker)

Agency: NIA (R01 AG 027087)

Dates: 2007 - 2010

Role: co-Investigator / Biostatistician

Book Chapters

Selker HP, Griffith JL, Beshansky JR. Acute cardiac ischemia time-insensitive predictive instrument (ACI-TIPI): A decision aid for emergency department triage and a measure of appropriateness of coronary care unit use. *Acute Coronary Care in the Thrombolytic Era*, 2nd Edition, Chapter 17. Califf RM, Mark DB, Wagner GS, Editors, St. Louis, Mosby-Year Book, 201-211, 1995.

Schmid CH, Griffith JL. Multivariate classification rules, calibration and discrimination. *Encyclopedia of Biostatistics*. Armitage P, Colton T, Editors, John Wiley & Sons, 1998.

Abstracts \ Selected Presentations:

Jayes RJ, Larsen GC, Beshansky JR, Griffith JL, D'Agostino RB, Selker HP. How often do emergency room physicians misread ST segments and does it affect patient care? A multicenter study. Presented at the Twelfth Annual Meeting of the Society for General Internal Medicine, Washington DC, April 1989.

Larsen GC, Griffith JL, Beshansky JR, D'Agostino RB, Selker HP. How well do physicians diagnose and manage acute cardiac ischemia in emergency room patients with electrocardiographic left ventricular hypertrophy? A multicenter study. Presented at the Annual Meeting of the American Federation of Clinical Research, Washington DC, April 1989.

Selker HP, Griffith JL, Beshansky JR, Califf RM, D'Agostino RB, Laks MM, Lee KL, Maynard C, Wagner GS, Weaver WD. The Thrombolytic Predictive Instrument (TPI) Project: Combining clinical study databases to take medical effectiveness research to the streets. Presented at the Agency for Health Care Policy and Research Conference, Minneapolis, Minnesota, September 1991.

Chuttani K, Metherall J, Griffith JL, Oates E, Konstam MA, Pauker SG, Oates E, Coleman P, Salem DN, Konstam MA, Udelson JE. Hepatic uptake of thallium-201 in patients with right coronary artery disease. Presented at the American Heart Association Annual Meeting, 1992.

Griffith JL, D'Agostino RB, Selker HP. Statistical regression techniques for the construction, interpretation, and testing of computer neural networks. Presented at the Annual Meeting of the Society for Medical Decision Making, 1992.

Patil S, Griffith JL, Selker HP. Logistic regression and neural networks as clinical predictive instruments: does one produce a best model? Presented at the Annual Meeting of the American Federation of Clinical Research, Clin Res, Baltimore, Maryland, 40:347A, May 1992.

Sarasin FP, Reymond JM, Griffith JL, Beshansky JR, Schifferli JA, Unger PF, Scherrer JR, Selker HP. Impact of the time-insensitive predictive instrument (TIPI) for acute cardiac ischemia (ACI) on emergency department (ED) treatment speed for chest pain patients. Presented at the Annual Meeting of the American Federation for Clinical Research, Baltimore, Maryland, May 1992.

Selker HP, Griffith JL, Beshansky JR, Schmid CH, Califf RM, D'Agostino RB, Laks MM, Lee KL, Maynard C, Wagner GS, Weaver WD. A thrombolytic predictive instrument for acute myocardial infarction. Presented at the 65th Scientific Session of the American Heart Association, New Orleans, Louisiana, November, 1992.

Selker HP, Schmid CH, Beshansky JR, Griffith JL, Longstreth WT, O'Connor CM, Caplan LR, Massey EW, D'Agostino RB, Laks MM, Lee KL, Wagner GS, TPI Investigators. Pulse pressure predicts thrombolysis-related hemorrhagic stroke. Presented at the 65th Scientific Session of the American Heart Association, New Orleans, Louisiana, November, 1992.

Griffith JL, Selker HP, Beshansky JR, Schmid CH, Califf RM, D'Agostino RB, Laks MM, Lee KL, Wagner GS, Weaver WD. The thrombolytic predictive instrument (TPI) predictions of thrombolytic

therapy impact on 30-day and 1-year mortality for real-time use. Presented at the Annual Meeting of the American Federation for Clinical Research, Washington DC, May 1993. Clin Res, 41: 182A, 1993

Griffith JL, Selker HP. The impact on the area under the receiver-operating characteristic curve of disease prevalence and the distribution of patient characteristics. Presented at the Annual Meeting of the American Federation for Clinical Research, Washington DC, May 1993. Clin Res, 41:181A, 1993.

Maynard C, Selker HP, Beshansky JR, Griffith JL, Schmid CS, Califf RB, D'Agostino RB, Laks MM, Lee KL, Wagner GS, Weaver WD. The influence of gender of patient inclusion in developing the thrombolytic predictive instrument. Presented at the Annual Meeting of the American Federation for Clinical Research, Washington DC, May 1993. Clin Res, 41:201A, 1993.

Midgette AS, Griffith JL, Califf RB, Dietz SB, Selker HP. A summary scoring system using ECG ST segment and T wave changes to predict the infarct related artery in acute myocardial infarction. Presented at the Annual Meeting of the American Federation for Clinical Research, Washington DC, May 1993. Clin Res, 41:217A, 1993.

Schmid CH, Selker HP, Beshansky JR, Griffith JL, Califf RM, D'Agostino RB, Laks MM, Lee KL, Maynard C, Wagner GS, Weaver WD. A logistic regression model for the effect of thrombolytic therapy on the risk of cardiac arrest when some outcomes precede treatment. Presented at the Annual Meeting of the American Federation for Clinical Research, Washington, DC, April 1993.

Selker, HP, Griffith JL, Beshansky JR, Schmid CH, Califf RM, D'Agostino RB, Laks MM, Lee KL, Maynard C, Wagner GS, Weaver WD. A thrombolytic predictive instrument for emergency AMI treatment. Presented at the American College of Cardiology 42nd Scientific Session, Anaheim, California, March 1993.

Snydman DR, Griffith JL, Kahan F. Risk Factors for third generation cephalosporin (C3) and Imipenem (IMP) resistant inducible enterobacteriaceae (IE) and Pseudomonas aeruginosa (PA) among intensive care unit patients (ICU). Presented at the 18th International Congress of Chemotherapy, 1993.

Schmid CS, Selker HP, Beshansky JR, Griffith JL, D'Agostino RB, Raitt MH, Califf RB, Laks MM, Lee KL, Maynard C, Wagner GS, Weaver WD. A logistic regression model for the effect of thrombolytic therapy on the risk of cardiac arrest when some outcomes precede treatment. Presented at the Annual Meeting of the American Federation for Clinical Research, Washington DC, May 1994. Clin Res, 41:291A, 1994.

Ahmid A, Griffith JL, Foote C, Rastegar H, Estes M, Wang PJ. Tachycardia cycle length as an independent predictor of cardiac and total mortality in patients with implantable defibrillators. Presented at the 68th Scientific Session of the American Heart Association, Anaheim, California, November 1995.

Coronado BE, Griffith JL, Beshansky JR, Selker HP for the TIPI Working Group, Division of Clinical Care Research, New England Medical Center, Boston, MA. Acute Hospital mortality in women and men with acute cardiac ischemia: A prospective multicenter study. Presented at the Annual Meeting of the American Federation for Clinical Research, San Diego, May 1995. Clin Res 43:391A, 1995.

Coronado BE, Griffith JL, Beshansky JR, Selker HP for the TIPI Working Group. Acute hospital mortality in women and men with acute cardiac ischemia: A prospective multicenter study. Presented at the Annual Meeting of the American Federation of Clinical Research, San Diego, California, October, 1995. J Invest Med, 43:391A.

Coronado BE, Griffith JL, Beshansky JR, Selker HP, for the ACI-TIPI Investigators. Pain in diabetic patients with acute myocardial infarction: A prospective multicenter study. Presented at the Annual Eastern Region American Federation of Clinical Research Meeting, Boston, October 1995. *J Invest Med*, 43:503A.

Falagas ME, Snyderman DR, Griffith J, Werner BG, Freeman R, Rohrer R, and the Boston Center for Liver Transplantation CMVIG study group. Predictors of recurrent cytomegalovirus disease in orthotopic liver transplant recipients. Presented at the 35th Interscience Conference on Antimicrobial Agents and Chemotherapy (ICAAC), San Francisco, California, September 1995.

Falagas ME, Snyderman DR, Griffith J, Werner BG, and the Boston Center for Liver Transplantation CMVIG study group. Cytomegalovirus exposure from the donated organ is a risk factor for bacteremia in orthotopic liver transplant recipients. Presented at the 35th Interscience Conference on Antimicrobial Agents and Chemotherapy (ICAAC), San Francisco, California, September 1995.

Griffith JL, Beshansky JR, Selker HP, for TIPI Working Group, CCHSR, New England Medical Center, Boston, MA. A multicenter prospective test of electrocardiograph-generated ACI-TIPI predictions for acute cardiac ischemia. Presented at the Annual Meeting of the American Federation for Clinical Research, San Diego, May 1995. *Clin Res* 43:215A.

Griffith JL, Beshansky JR, Selker HP for the TIPI Working Group. A multicenter prospective validation of computerized electrocardiograph-generated ACI-TIPI risk groups for acute cardiac ischemia. Presented at the Annual Eastern Region American Federation of Clinical Research Meeting, Boston, October, 1995. *J Invest Med*, 43:507A.

Maynard C, Beshansky JR, Griffith JL, Selker HP. The influence of gender on the use of cardiac procedures in patients presenting to the emergency department: A multicenter study. Presented at the 68th Scientific Session of the American Heart Association, Anaheim, California, November 1995. *Circulation*, 92:I-437.

Selker HP, Beshansky JR, Griffith JL for the TIPI Working Group. A controlled trial of the acute cardiac ischemia time-insensitive predictive instrument (ACI-TIPI) electrocardiograph on emergency department (ED) triage. Presented at the Annual Eastern Region American Federation of Clinical Research Meeting, Boston, October 1995. *J Invest Med*, 43:497A.

Zucker DR, Griffith JL, Beshansky JR, Selker HP for the TIPI Working Group Division of Clinical Care Research Department of Medicine, New England Medical Center, Boston, MA. Accuracy of Emergency Department diagnosis of acute myocardial infarction in women vs. men: A prospective multicenter study. Presented at the Annual Meeting of the American Federation for Clinical Research, San Diego, May 1995. *Clin Res* 43:404A.

Zucker DR, Griffith JL, Beshansky JR, Selker HP for the TIPI Working Group. Accuracy of emergency department diagnosis of acute myocardial infarction in women vs. men: A prospective multicenter study. Presented at the American Federation of Clinical Research Meeting, San Diego, California, October 1995. *J Invest Med*, 43:404A.

Vannan M, Kettle A, Coakely A, Griffith JL, Udelson JE. Influence of infarct zone viability on left ventricular remodeling in the year following first anterior myocardial infarction. Presented at the 68th Scientific Session of the American Heart Association, Anaheim, California, November 1995.

Falagas ME, Barefoot L, Griffith J, Ruthazer R, Snyderman DR. Risk factors for clinical failure of antibiotic therapy in patients with intra-abdominal or skin/soft tissue infections treated with cefotetan, ceftioxin, or ampicillin/sulbactam monotherapy: A retrospective controlled study. Presented at the 1st European Congress of Chemotherapy, Glasgow, Scotland, May 1996.

Magno AC, Zucker DR, Griffith JL, Selker HP. Analysis of outcomes in 30 to 34 week gestation (moderate risk) infants: implications for regionalized perinatal programs. Presented at the American Federation for Clinical Research, Washington D.C., May 1996

Picken HA, Zucker DR, Griffith JL, Beshansky JR, Selker HP. Insurance type and the transportation to emergency department (EDs) of patients with chest pain or other symptoms suggestive of acute cardiac ischemia (ACI): the ACI-TIPI insurance study. Presented at the Annual Meeting of the American Federation for Clinical Research, Washington D.C., May 1996

Cory DA, Schmid CH, Griffith JL, Long WJ, D'Agostino RB, Selker HP. How much do we gain from complex logistic regression models? Presented at the 156th Annual Meeting of the American Statistical Association, Chicago, August 1996.

Griffith JL, Schmid CH, Cory DA, Long WJ, D'Agostino RB, Selker HP. Building local binary predictive models that fit globally. Presented at the 156th Annual Meeting of the American Statistical Association, Chicago, August 1996.

Falagas ME, Snyderman DR, Ruthazer R, Griffith J, Werner BG, and the Boston Center for Liver Transplantation CMVIG Study Group. Primary cytomegalovirus infection in liver transplantation: comparison between donor and transfusion transmitted infection. Presented at the 36th Interscience Conference on Antimicrobial Agents and Chemotherapy (ICAAC), New Orleans, Louisiana, September 1996.

Falagas ME, Snyderman DR, Ruthazer R, Griffith J, Werner BG, and the Boston Center for Liver Transplantation CMVIG Study Group. Lack of value of surveillance blood, urine, and throat cytomegalovirus cultures in predicting cytomegalovirus disease in liver transplant recipients. Presented at the 36th Interscience Conference on Antimicrobial Agents and Chemotherapy (ICAAC), New Orleans, Louisiana, September 1996.

Falagas ME, Snyderman DR, Ruthazer R, Griffith J, Werner BG, and the Boston Center for Liver Transplantation CMVIG Study Group. Cancer incidence after metronidazole use: a matched metronidazole user/non-user study of 60,054 subjects. Presented at the 36th Interscience Conference on Antimicrobial Agents and Chemotherapy (ICAAC), New Orleans, Louisiana, September 1996.

Feldman JA, Fish SS, Beshansky JR, Griffith JL, Woolard RH, Selker HP. Acute cardiac ischemia in patients with cocaine related complaints: results of a large multicenter trial. Presented at the Eastern Regional Meeting of the American Federation for Medical Research, Boston, September 1996.

Feldman JA, Fish SS, Beshansky JR, Griffith JL, McAfee A, Woolard RH, Selker HP. The accuracy of the acute cardiac ischemia time-insensitive predictive instrument (ACI-TIPI) in patients with cocaine related complaints: results of the ACI-TIPI clinical trial. Presented at the Eastern Regional Meeting of the American Federation for Medical Research, Boston, September 1996.

Shamsuddin, Rasmussen ZA, Shaheen, Griffith J. Respiratory rates and oxyhaemoglobin saturation in normal children in Gilgit, Northern Areas. Presented in Karachi, September 1996.

Valentine J, Griffith JL, Ruthazer R, Kulig J. A predictive model of weapon-carrying among urban high school students. Presented at the Eastern Regional Meeting of the American Federation for Medical Research, Boston, September 1996.

Woolard RH, Sidman RD, Moulton AW, Connolly E, Griffith JL, Beshansky JR, Selker HP. Creatine kinase testing in the emergency department was associated with an increase in admissions of chest pain patients who did not have acute ischemia. Presented at the Eastern Regional Meeting of the American Federation for Medical Research, Boston, September 1996.

Griffith JL. The Impact of Sample Size and Outcome Prevalence on the Predictive Performance of Logistic Regression, Classification Trees, and Neural Networks. Presented at the 157th Annual Meeting of the American Statistical Association, Anaheim, August 1997.

Burns J, Outwater K, Geller M, Griffith J, Todres D, Truog R. Ventilator withdrawal at the end-of-life. Presented at the Annual Meeting of Pediatrics, November 1997.

Balk EM, Griffith JL, Beshansky JR, Selker HP. Vomiting as a predictor of acute myocardial infarction in the emergency department. Presented at the Annual Meeting of the Society for General Internal Medicine, April 1998.

Pope JH, Aufderheide TP, Ruthazer R, Woolard RH, Beshansky JR, Griffith JL, Selker HP. Missed diagnoses of acute myocardial infarction in the emergency department: Results from a multicenter study. Presented at the Annual Meeting of the Society for General Internal Medicine, April 1998.

Griffith JL, Ruthazer R, Schmid C, Terrin N. A comparison of regression models, classification trees, and neural networks for the prediction of cardiac complications. Presented at the 158th Annual Meeting of the American Statistical Association, Dallas, August 1998.
