RESEARCH HISTORY

PRIMARY INVESTIGATOR AND/OR RESEARCH ADVISOR

Knowledge and attitudes of Massachusetts pharmacists regarding the implementation of the Medicare Modernization Act in the year 2006 (student honors project)

Assessment of nursing-pharmacy relationships in the provision of pharmacotherapy in a suburban public school system (sabbatical project)

A pharmacokinetic evaluation of aminoglycoside dosing guidelines in adult patients (student project)

Evaluation of pharmacokinetic software programs in predicting serum theophylline concentrations (student project)

Evaluation of a pharmacokinetic software program in predicting serum gentamicin concentrations in critically ill patients (student project)

A digoxin utilization review

A pharmacokinetic comparison of two oral sustained release procainamide preparations (student thesis)

An aminoglycoside utilization review: considerations of appropriateness of drug use, dosing and clinical monitoring (student project)

Evaluation of computer software programs in predicting aminoglycoside plasma concentrations (student thesis)

The psychosocial determinants of cigarette smoking among cardiovascular patients (my thesis)

RESEARCH CONSULTANT AND/OR RESEARCH COMMITTEE MEMBER

The effect of phenylpropanolamine on estrogen hormone binding to estrogen receptors of human breast cancer cells *in vitro* (student project)

Health-related quality of life of adult patients receiving anti-epileptic drug therapy (student project)

A pharmacokinetic comparison of intranasal, oral and intramuscular metoclopramide

The pharmacokinetics of continuous intravenous morphine for severe cancer pain

The pharmacokinetics of sufentanil in patients undergoing renal transplantation

The predictability of steady state concentrations of nortriptyline from single dose plasma concentration data in depressed geriatric patients (student thesis)

The clinical significance of the digoxin/diltiazem interaction (student thesis)

Influence of renal factors on the total body clearance of procainamide (student thesis)

Investigation of a modified continuous maintenance dosage infusion of theophylline in pediatric patients (student thesis)

Determination of false positive serum digoxin concentrations in patients with liver disease (student thesis)

Audit of neonatal gentamicin use (student thesis)

Evaluation of the *in vitro* effects of vancomycin HCl on serum gentamicin concentrations

Impact of a therapeutic drug monitoring program for quinidine and procainamide (student thesis)
