**Mission Statements**

The Bouvé College of Health Sciences (BCHS) strongly supports the mission of Northeastern University to educate students for a life of fulfillment and accomplishment. To create and translate knowledge to meet global and societal needs.

The mission of the Bouvé College of Health Sciences is to inspire/create the next generation of interprofessional healthcare leaders for the wellbeing of our global community.

The Bouvé vision is to embrace the diversity inherent in humanity and capitalize on our opportunity to educate students, and generate and disseminate new knowledge for the betterment of health and healthcare for people everywhere.

**General Regulations**

The University expects each student to respect the rights and privileges of others and to adhere to acceptable standards of personal conduct. Students are expected to familiarize themselves with the Northeastern University Graduate Student Handbook at www.neu.edu/gradhandbook for details of the University’s regulations, the code of student conduct, and policies on academic honesty.

The Bouvé Graduate Policies and Regulations Handbook includes the general standards for all graduate programs, including certificate programs, within the College. Individual programs, departments, or schools may issue student policies that supplement these requirements. Please refer to individual program handbooks for program-specific details, since some programs may have more stringent requirements than those stated in this document.

**Academic and Professional Conduct**

In accordance with the expectations for student behavior outlined in the Northeastern University Graduate Student Handbook, the Bouvé College of Health Sciences (BCHS) assumes that all students come to the College for a serious purpose and expects them to be responsible individuals with high standards of academic integrity. The College will not condone academic dishonesty in any form, nor will it tolerate violations of research or professional ethics within the academic community.

The health care professions and health sciences in the College require more than simple mastery of technical knowledge and skills. Equally important is earning the respect and confidence of those who seek health care. The nearly universal existence of ethical codes of conduct among the various health professions is evidence that certain types of conduct are expected in order to promote this respect and confidence. Fundamental to most of these codes is an understanding that health care professionals and researchers are required to conduct their activities in a manner that reflects a concern for the total wellbeing of the patient/client and research subject. Students are expected to follow the code of conduct of their individual professions and program/department. All students are responsible for knowing their program’s code of conduct, professional policies and procedures.
Health Certification

All new students must complete the University Health Report form following acceptance to the University. These forms may be obtained at the University Health and Counseling Services (UHCS) located at 135 Forsyth Building or downloaded from http://www.northeastern.edu/uhcs/forms/index.html. Graduate students may additionally be expected to provide UHCS with proof of a physical exam or statement of good health prior to registration; this may vary among programs.

As a condition of matriculation at Northeastern University, all students are required to submit the completed University Health Report form to UHCS. Graduate students must return the form no later than one month prior to entering the University. The Health Center will block the registration of those who do not file correct forms. All documentation must be signed by a medical doctor, nurse practitioner, or physician assistant.

The Commonwealth of Massachusetts requires all university students to provide documentation of immunity to the following:
- Hepatitis B (Series of three immunizations or one positive titre)
- Measles (Two immunizations or positive antibody titre)
- Mumps (One immunization or positive antibody titre)
- Rubella (One immunization or positive antibody titre)
- Meningitis (Optional; students may decline immunization)
- Tetanus/Diphtheria (Immunization within last 10 years)

Graduate students in the Bouvé College of Health Sciences are additionally required to provide documentation of immunity to the following:
- Varicella/Chicken Pox
- Tuberculin skin test (PPD): within six months of registration

Please refer to page two of the University Health Report for further clarification. The University Health Report is to be completed once prior to students beginning their graduate studies; however, some programs in the Bouvé College of Health Sciences may require that students provide proof of physical examination annually. NOTE: Some units within the College may require proof of additional immunities. Please consult your program handbook or your program advisor for more information. Medical documentation and health certification are maintained by UHCS. Additional clinical clearance may be required by some units within the College prior to you presence in any clinical setting.

Accommodations for Students with Disabilities:

Students who wish to be evaluated for disabilities should contact the Disability Resource Center (http://www.drc.neu.edu, x2675). If diagnostic documentation can be provided for a disability that substantially limits one or more major life activities, the student is eligible to receive services from the Disability Resource Center (DRC) and to have appropriate accommodation in coursework, in accordance with federal laws and guidelines. The student must register with the DRC and meet with a specialist prior to matriculation. Accommodation will not be made retroactively.
Practicum/Internship Policies

Students taking practicum courses or doing internships in their field of study may be required to submit certification of health status to each of their clinical placement coordinators. Each program has its own regulations for practicum health clearance. Students should consult their program handbooks or clinical placement coordinator for these requirements. Students who do not present the appropriate health certification will be blocked from registering for, or attending, practicum until satisfactory evidence is provided. An annual update of student's health certification is also required in some internships and practica. Students taking practicum courses may also be required to submit to and successfully clear criminal history/background checks (CORI) (see below: Background Checks.) International nursing students must have a current U.S. nursing license and social security number.

Background Checks

An increasing number of clinical sites require background checks for employees as well as students who come to their facilities. Northeastern University students will need to have background checks done if their assigned clinical agency requires it. The most common background check required is the Massachusetts Criminal Offender Record Information (CORI), although some clinical sites require other types of checks, such as drug testing.

Bouvé College contracts with a national company to perform these checks. The company provides this service for universities nationwide. The fee varies depending on the type of background check needed.

All background check information is confidential. Results are sent to the Designated Clearance Officer for Bouvé College, who is the only person who has access to the results. A student will be contacted by the Clearance Officer only if there is a question about the results. Neither the student nor the Clearance Officer is required to reveal the actual results of a background check to an on-campus Clinical Coordinator/Clinical Placement Office, a clinical site, or anyone else at the University.

If an assigned clinical site requires students to have a background check, the on-campus Clinical Coordinator/Clinical Placement Officer will inform the student of the requirements and provide the student with instructions and a deadline for completing the check. It is crucial that the student complete the check by the deadline given to assure adequate processing time prior to the start of a clinical experience. Failure to complete the check in a timely manner could jeopardize the student’s progression in the program.

Liability Insurance

All students on practicum, internship or externship must register each semester to be covered by Northeastern University liability insurance. As long as they are registered, all Northeastern University matriculated students in fields of study requiring malpractice insurance are covered under a professional liability insurance for which they pay a yearly fee. This insurance covers injury to third parties by students doing work or professional studies outside Northeastern University premises that are clearly part of their duties. It does not cover willful misconduct. Students or the clinical placement coordinator can request that the Institutional Audit, Compliance and Risk Services Office send evidence-confirming coverage to their field site. Students should consult their practicum placement officer, program coordinator and specialization policies for information about further requirements for liability insurance. If you are not sure if your program is covered under this policy, coverage can be verified through the Institutional Audit, Compliance and Risk Services Office at extension x5997 or http://www.northeastern.edu/risk_services/index.php.
Financial Awards (For financial awards, please refer to pages 13 & 14 of the Graduate Catalog)

**Student Graduate Assistantship (GA) Policies**

**GA – Graduate Assistant.** This group includes: Research Assistants and Teaching Assistants. These awards provide a stipend as well as a tuition waiver of up to a maximum of 12 semester hours per term, in exchange for 20 hours of work per week. It is expected that the student will work through the final exam period, including Spring Break. Any variation is at the discretion of the student’s supervisor.

GAs are awarded only to PhD students, with rare exception. GAs must be full time (6 semester hours per term). The maximum number of hours GAs are permitted to work is 20 hours a week. GAs are eligible for 100% health insurance coverage. This coverage does not include health center fees.

**Graduate Scholarships.** A limited number of scholarships, up to 8 credits per semester, are available for full time students only. These scholarships are awarded by the individual graduate school departments.

**Dean’s Scholarships.** A limited number of Dean’s Scholarships (discounted tuition) are available for entering MS students in programs that participate in this scholarship plan. These scholarships are only awarded to applicants who rank in the top third of the applicant pool and are assigned prior to matriculation.

- This award pays 33% of the full-time graduate student’s tuition to a maximum dollar amount not to exceed the tuition charged for 4 semester hours in each term of full-time registration.
- The award pays 25% of the part-time graduate student’s tuition to a maximum dollar amount not to exceed the tuition charged for 2 semester hours in each term of part-time registration.
- Provisional and special students are not eligible to receive a Dean’s Scholarship.
- Dean’s Scholarships are awarded by the student’s academic department/college prior to the time of acceptance.

**Yellow Ribbon Awards:** Qualifying veterans who enroll at Northeastern will receive grant aid that covers most to all of Northeastern’s tuition and fee charges, depending on the selected degree program. Northeastern and the Department of Veterans Affairs will cover most to all of the expenses that exceed the cost of attending the University of Massachusetts. Allowances for housing, books and supplies are included.

**Double Husky Awards.** Some departments or programs award the Double Husky Scholarship to MS students who received an undergraduate degree from Northeastern. For more information, please see: [http://www.northeastern.edu/doublehusky/eligibility/documents/Double_Husky_OverviewUpdated2012.pdf](http://www.northeastern.edu/doublehusky/eligibility/documents/Double_Husky_OverviewUpdated2012.pdf)

**Academic Advising**

When a student is accepted into the Bouvé Graduate School, the program or unit director, or designate, will serve as the student’s academic advisor. The student will be notified of their advisor’s name in the formal letter of acceptance, so that communication may begin prior to the student’s first registration.

The faculty advisor will assist the student in understanding program requirements and in defining career goals and objectives of graduate work. The advisor will also monitor student progress toward successful completion of the degree.
**Student Advisement Responsibilities**

Students share responsibility with their advisor for successful matriculation and progression in their graduate program. In many programs, students are required to make appointments for academic advisement at least twice a year and must regularly update a curriculum plan with their advisor. The curriculum plan is kept on file in the program’s office and both student and advisor retain a copy. Students must contact their academic advisor prior to making changes in their curriculum plan and must seek assistance regarding academic issues in a timely manner.

**Provisional and Conditional Acceptances**

A student who is accepted conditionally into the Bouvé Graduate School must meet the conditions set in the acceptance letter before they matriculate into the program and prove the fulfillment of said conditions.

Examples of conditions: Receipt of official verification of previous degree completion, completion of missing prerequisite courses, receipt of a missing recommendation, standardized test scores, translation of international documents, etc.

A matriculated student who is accepted provisionally must meet conditions set in the acceptance letter during the period of time after matriculation that is stated in the acceptance letter.

Examples of provisions: Maintenance of GPA of 3.0 during a specified amount of time after matriculation, specified grade levels must be met during time after matriculation, must take missing prerequisite courses after matriculation within a certain time range, etc.

**Grading, Grading Policies, Grading Criteria and Quality Point Average**

Please refer to Page 21 in the Graduate Catalog.

**Transfer of Credit**

A maximum of 9 semester/12 quarter hours of credit obtained at another institution may be accepted towards the degree, provided the credits consist of work taken at the graduate level for graduate credit, carry grades of 3.000 or better, have been earned at an accredited institution, and have not been used toward any other degree. These courses must have been taken within 5 years prior to the transfer and cannot be taken in the last semester prior to graduation.

The exact requirements for fulfillment of a degree in the BCHS Graduate School vary by program. Students must consult their individual academic program catalogues and policies, as well as program directors, if applicable, for specific credit and non-credit requirements necessary to achieve a specific degree.

If the course had been taken prior to matriculation at Bouvé, the student must submit to their academic advisor a petition requesting transfer along with the official transcript indicating successful completion of the course to be transferred. Upon obtaining the advisor’s approval, the student will submit the documentation to the Graduate School Office on the appropriate petition form. A student may petition to transfer credit only after matriculation in Bouvé (please see section titled Academic Standing Petitions for the petition procedure on page 11).
Courses that have not been taken but will be taken for transfer from another institution must receive pre-approval from the student’s academic advisor. Students should submit the petition with the course description attached to their advisor for approval and then submit the completed petition to the Bouvé Graduate School Office.

Graduate courses at the Northeastern University College of Professional Studies (CPS) can be considered for transfer only with prior approval of the academic advisor. Courses taken in CPS cannot be considered to fulfill full-time requirements for international students. For consideration of financial aid for CPS courses, please check with your financial aid officer.

**Students may not take courses required for the completion of their program in the last semester of their program.**

**Course Waiver**

A student must obtain approval from their academic advisor to waive a course that was taken for credit toward a prior degree. To obtain approval by the academic advisor, the student must provide an official transcript and a syllabus of the content of the course to the program director, in order to verify equivalency with the course to be waived. The student must submit the signed appropriate petition form to the Bouvé Graduate Office (see Appendix 2 for the petition form). If approved to waive the course, the student must take another course in its place for equivalent credit.

**Academic Progression**

All students should register by the first week of the semester for coursework or continuation credit each semester of the academic year (fall, spring and, where indicated, summer) once they are matriculated as full- or part-time students. All Physician Assistant students must register all three semesters. If a student does not register for two consecutive semesters, the student’s file will be placed in the “inactive” archives and kept there for no longer than five years. Therefore, if a student plans on being absent more than one semester, they must notify the Bouvé Graduate Student Office and file a petition for a Leave of Absence. (Please see page 17.)

For information about withdrawal and refund policies, please refer to the following: [http://www.northeastern.edu/financialaid/studentaccounts/refunds.html](http://www.northeastern.edu/financialaid/studentaccounts/refunds.html)

All degree requirements must be completed within a maximum of seven years of matriculation, although individual academic programs may require completion in a shorter time frame. Each student is responsible for reviewing the requirements for their particular program. A student’s failure or inability to register does not extend the amount of time allowed to complete the program. Course credits earned in programs of graduate study are valid for a maximum of seven years unless an extension is granted by the Bouvé Associate Dean of Graduate Studies (see Appendix 2). After establishment of candidacy for the Ph.D. degree, a maximum of five years will be allowed for completion of the degree requirements, unless an extension is granted (see Extension Procedures below). In order to progress in clinical courses that are sequenced, students must receive a passing grade in all prior courses in the sequence. In the event that a student fails a clinical course that is not part of a sequence, progression is at the discretion of the student’s academic advisor and/or the program director. When a student fails a clinical course that is part of a sequence of courses, the course instructor must notify the Bouvé College Graduate Office. Course material related to the student’s failure (examination reports, clinical reports) must be made available to the student for review.
**Registration for Directed Studies**

Students who wish to take a directed study course must complete the following in advance of the start of the Directed Study:

- Obtain two Directed Study Forms, one from the Bouvé Graduate Office (see Appendix 3) and one at [http://www.northeastern.edu/registrar/form-gs-dir-study-reg.pdf](http://www.northeastern.edu/registrar/form-gs-dir-study-reg.pdf)
- Meet with the faculty member who will supervise the directed study to determine syllabus, course credits and criteria for completion. Description of course criteria should be entered on the Bouvé form. Both instructor and student sign the Bouvé form and the instructor signs the registrar’s form.
- Present both directed study forms to program director.
- Take both registration forms to the Bouvé College of Health Sciences Graduate Office for signature of the Associate Dean or Director of Student Services.
- Take the signed registrar’s directed study form to 120 Hayden to register for the course.

**Program Extension Procedures**

Students may seek an extension of the time limitation to complete their program of study only under documented extenuating circumstances. An extension may be granted if the student provides, in writing, the justification for the extension and an acceptable plan to complete the requirements for the degree. The student must complete the petition form that is available on the following url: [http://www.northeastern.edu/registrar/form-gs-prog.pdf](http://www.northeastern.edu/registrar/form-gs-prog.pdf). The new date of graduation must be listed. The petition and the proposed action plan must be submitted for approval to the program director and to the Associate Dean of Graduate Education.

**Student’s Academic Standing**

Academic standing in BCHS is determined by the student's cumulative quality point average (GPA), and performance in academic and clinical courses that are required by their program. All BCHS students are expected to maintain a cumulative GPA of 3.000 each semester to remain in good academic standing and to progress toward graduation. Students who do not maintain a cumulative GPA of 3.000 each semester will be placed on probation. Additionally, some programs require students to earn a grade of B (3.000) or better in each specified course. (Please see Deficiency Information below). Students must also earn a grade of B (3.000) or better in graduate courses taken at another institution which are subject to transfer credit.

**Deficiency Information by Program**

Audiology: 3.0 GPA & B lowest grade approved
Biotechnology: 3.0 GPA & C- lowest grade approved
Exercise Sciences: 3.0 GPA & B lowest grade approved
Health Informatics: 3.0 GPA & B- lowest grade approved
Nursing: 3.0 GPA & B lowest grade approved (Direct Entry has exceptions for undergraduate courses taken during the program)
Physical Therapy: 3.0 GPA & C lowest grade approved
Physician Assistant: 3.0 GPA & C lowest grade approved
Public Health: 3.0 GPA & B- lowest grade approved
Pharmaceutical: 3.0 GPA & B lowest grade approved
Psychology: 3.0 GPA & B lowest grade approved
Speech: 3.0 GPA & B lowest grade approved
**Academic Probation Policy**

Academic probation is a period of time when a student must address and remediate academic deficiencies. An action plan to clear the deficiency must be developed by the student, the student’s academic advisor, and the specific program graduate committee (if applicable). A student placed on probation will receive written notification by the Office of Graduate Student Services. The student’s program advisor will also receive notification of probationary status. It is the student’s responsibility to write an action plan with their advisor. The plan should document how the deficiency will be remediated. This action plan must be signed by the advisor and the student, and placed in the student’s file in the Graduate Office within one month from the date of the written notification of probation. The student’s failure to file an action plan may be cause for dismissal from the program. The action plan must specify the date by which the deficiency will be cleared. Students will be placed on probation for the following deficiencies:

- A cumulative GPA below 3.0. If the student remains on academic probation for two semesters, they may be terminated from the graduate program.
- In some programs, a grade of B- or below in a specified course.

A BCHS graduate student may repeat a course only once to achieve a passing grade, and may only repeat two courses during his/her entire program of study. A student may be on probation for only two semesters, or until the course is offered again, unless the advisor approves an action plan which specifies a longer, but definite period. A student may only be placed on probation twice during enrollment in BCHS and must correct all deficiencies, as specified, in each respective action plan during the applicable probationary period. Failure to remediate the deficiency within the agreed-upon time may result in dismissal from the program. During the period of probation, the student must earn a GPA of 3.0 or better each semester, or they are subject to dismissal from BCHS. Note that individual graduate programs may have additional requirements which must be included in the probation action plan.

Once the student has regained a GPA of 3.000, earned a grade of B or better in a repeated course, and/or demonstrated satisfactory performance in a clinical course, they are removed from probation.

**Academic or Research Dishonesty**

The University’s Academic Honesty and Integrity Policy is published in the Graduate Students Handbook. Academic or research dishonesty will result in disciplinary action, which may include a failing grade in the course, probation, suspension, or immediate dismissal from the program. **Students found responsible for academic or research dishonesty will have a letter placed in their permanent file stating the pertinent findings of their case.** No student may withdraw from a course in which they have been notified that they will fail for a specific finding of academic dishonesty.

For further information on policies and procedures regarding the handling of potential violations of this policy, go to [http://www.northeastern.edu/admissions/academics/handbook.html](http://www.northeastern.edu/admissions/academics/handbook.html) and see pages 51-52 in *The Northeastern University Graduate Student Handbook* ([http://www.northeastern.edu/gradhandbook/](http://www.northeastern.edu/gradhandbook/)).

The University’s Policy defines various aspects of academic dishonesty, such as cheating and plagiarism. Lack of knowledge of these definitions does not negate the student’s responsibility for upholding them. Academic dishonesty and misconduct are regarded as serious violations of ethical standards and may result in the student’s immediate dismissal from the graduate program.
In addition to maintaining complete honesty in all academic work, students admitted to clinical or professional programs in the College are expected to familiarize themselves with the code of ethical conduct of the professional discipline they are entering and to agree to uphold these principles. Similarly, students admitted to graduate research programs are expected to familiarize themselves with the code of ethics in research. Such a code is outlined in: *Guidelines for the Conduct of Research in the Intramural Research Program at NIH* (http://sourcebook.od.nih.gov/ethical-conduct/Conduct%20Research%206-11-07.pdf) by the U.S. Department of Health and Human Services. Ethical codes of conduct for researchers are also cited in: *On Being a Scientist, Responsible Conduct in Research* (http://www.nap.edu/readingroom/books/obas) by the National Academy of Sciences. Violations of research ethics can include, but are not limited to, the following: falsification or fabrication of data, plagiarism, malicious allegations of misconduct in science, covering up or failing to report misconduct, obstructing due process in investigations of misconduct, and reprisals against those revealing misconduct.

**Academic Standing Petitions**

Students must submit petitions to their program academic standing committee, graduate committee or program director as applicable to request:

- a leave of absence
- a waiver of policy
- a change in probationary status
- a change in program
- a change of status in program (e.g., full-time to part-time or vice versa).
- a different course of action regarding their academic standing, progression, probation or dismissal
- an extension of degree completion time
- transfer or waiver of credits
- pre-approval for course to be taken for transfer
- directed study (see directions on page 11)

Students must complete the appropriate petition form, which is available at http://www.northeastern.edu/registrar/form-gs-prog.pdf. The petition should include all relevant information. Students may be required to provide extra documentation such as official transcripts and/or course descriptions. A copy of this action is filed in the student's permanent record in the Bouve College Graduate School Office.

**Academic Dismissal**

A student may be dismissed from a graduate program when they have failed to maintain academic requirements or has violated a policy that specifies immediate dismissal. All students shall have an opportunity to correct academic deficiencies during an appropriate probationary period before dismissal is instituted, except when the policy specifies "immediate dismissal."

Students may be subject to immediate dismissal under the following conditions (Note that additional requirements that are not included in this list but are specific to the student’s major may also apply):
The student exhibits unethical behavior or misconduct in their academic program, practicum, internship or research;

The faculty instructor and/or the clinical supervisor determine that the student has demonstrated unsafe or inappropriate behavior in a clinical setting;

The student does not register for at least one class for two consecutive semesters and does not have an approved leave of absence;

The student has a cumulative quality grade point average below 3.00 at the end of the probationary period specified by the action plan;

The student does not demonstrate satisfactory performance in achieving the objectives of a clinical course;

The student fails to meet all the requirements of the program within the specified time limit mandated by the program and has not been given a formal extension;

The student in a PhD program fails to successfully complete the PhD qualifying/comprehensive exams as stipulated by the program;

The student fails to progress satisfactorily in research or fails to identify a thesis committee for the PhD dissertation within the time specified by the policies of the specific doctoral program.

The student has failed to file an action plan within one month of notification of probation;

The student has failed to meet the requirements of the action plan, including requirements that are specific to the student’s major;

The student has failed a course twice. (A student can only repeat a failed course once. A student may only fail 2 courses).

**Dismissal Procedures**

Dismissal of a student is initiated by the program director notifying the student being dismissed and the Associate Dean of the Bouvé College Graduate School providing the basis for the dismissal. Students who have been notified of dismissal may appeal this decision, using the Appeals Process previously described in this document.

**The Appeals Process**

The Bouvé Graduate Policies and Regulations set forth an appeals process that complies with that used by the University. For more information about this process, please refer to the Northeastern University Graduate Student Catalog at: [http://www.northeastern.edu/registrar/catgraddir1415.html](http://www.northeastern.edu/registrar/catgraddir1415.html).

**Procedure for Withdrawal from the University**

The student can withdraw online in their myNeu account. The Office of the Registrar will notify the Graduate School of the withdrawal. **The student is responsible for dropping any courses in which they are currently registered and should have an exit interview with their financial aid advisor.** Please note that the faculty teaching any course in which the student is actively enrolled is not responsible to notify the University of the withdrawal of the student.
**Leave of Absence**
Matriculated students may request an official leave of absence following the procedures and regulations outlined by the Graduate Student Handbook. The student must discuss the leave of absence with her/his advisor and complete the petition form that is available at [http://www.northeastern.edu/registrar/form-nonmed-leave-pet.pdf](http://www.northeastern.edu/registrar/form-nonmed-leave-pet.pdf) or in the Graduate Office of Admission & Student Services. The student should notify the Graduate Office 1 month prior to return in order to insure reinstatement for registration. Students with an approved leave of absence who do not return at the end of the leave of absence period, and have not requested an extension of the leave, will be dismissed by the Registrar. Please see Petition Guidelines, under section entitled “Academic Standing Petitions.” Information about Medical Leaves of Absence can be found at: [http://www.northeastern.edu/uhcs/forms/index.html](http://www.northeastern.edu/uhcs/forms/index.html)

**Graduation Policies**
Students are eligible for graduation under the following conditions: they are in good academic standing with a cumulative grade point average of 3.000 or above (additionally, some programs require a grade of B or better in some or all courses); they have fulfilled other requirements deemed necessary by their individual programs; they have completed the required number of credits for the MS, MPH, CAGS, AuD, DPT, DNP, PharmD or PhD and they have cleared all incomplete grades.

Students must register for commencement through their myNEU account (using the myCommencement tab) six months prior to graduation and set up a meeting with their academic advisor for academic clearance. Students should check with their advisors and program handbooks for all requirements necessary for graduation. Diplomas and certificates are issued three times a year (January, April/May and August/September), but there is only a spring commencement ceremony. Specific information is available at the commencement office. Students who wish to march at commencement but are not receiving a diploma at that time should contact the registrar’s office to make arrangements. PhD hooding occurs at spring commencement only. PhD students may not be hooded until they have successfully defended their dissertations and completed all program requirements including practica and internships.

Those students completing a thesis or dissertation to meet degree requirements must complete the following at least 2 weeks prior to commencement:

1) submit an electronic copy of the thesis/dissertation following the directions outlined at [http://etdadmin.com/northeasternbouve](http://etdadmin.com/northeasternbouve);

2) upon successful defense of the dissertation or thesis, the student must have the thesis/dissertation approval form signed by the members of their thesis/dissertation committee (see sample form in Appendices 3 & 4);

3) make an appointment with the Associate Dean of Graduate Education to submit the thesis/dissertation approval form.

PhD students must also submit a Survey of Earned Doctorates form to the Bouvé Graduate Office before commencement. This survey will be sent to the student by the Bouvé Graduate Office.
### INCOMPLETE GRADE: CLEARANCE PLAN
