Overview of Internship

Our program requires a comprehensive, supervised, and carefully evaluated internship in school psychology that emphasizes on providing breadth and quality of experiences, attainment of comprehensive school psychology competencies, and integration and application of the full range of domains of school psychology specified in our program training goals that reflect the National Association of School Psychologists (NASP) 2010 standard. In accordance with the NASP and Massachusetts Department of Education requirements for certification / licensure in school psychology, students are required to attain a minimum of 1200 hours of field experience during their internship in school psychology. Internship students are considered full-time students.

Out-of-State Internships

Students may elect to conduct their internship in another state. They should check with the state’s Department of Education to determine state licensure/certification requirements.

Prerequisites

In order for students from the Northeastern University School Psychology Program to be eligible to begin their internship, they must complete the following milestones in the program:
- Successful completion of the MTEL
- Successful completion of all coursework with the exception of internship
- Successful completion of the master’s level portfolio (master’s thesis equivalent)

Field Supervision

Internship supervision and mentoring should be provided by a credentialed school psychologist with a minimum of three years of experience. Internship supervision consists of a minimum of two hours per week, in a face-to-face format. Please see School Psychology Internship Supervision and NASP School Psychology Intern Supervisor Evaluation Form.

University Supervision

Internship students are enrolled in a seminar course during the internship year. A university supervisor, who is a certified school psychologist, instructs this course. The university supervisor maintains contact with the field supervisor through three site visits. University supervision for out-of-state internship will follow NASP guidelines. At the end of the internship year, the field supervisor and university supervisor determine if the student has progressed adequately in the major competency areas.

Comprehensive Case Studies

During the internship year, students are required to produce four case studies that illustrate their competencies in (a) professional identity and professional behavior, (b) assessment, (c) intervention / prevention, (d) program evaluation and applied research, (e) culture and diversity, (f) ethical and legal issues, and (g) communication and information technology. These case reports are:
- Assessment
- Consultation - Behavioral Problem or Academic Problem
- Counseling
- Prevention/Promotion of learning school-wide
More details about the requirements of the case studies are available on page 48.

Course Vouchers for Supervisors

In recognition of the valuable guidance and supervision that is given to internship students, the Bouvé College of Health Sciences at Northeastern University makes available tuition vouchers for field supervisors. A voucher for one course at Northeastern University is available for each NU internship student. The voucher must be requested by a letter on school / agency stationery.

Successful Completion of Internship

- Completion of 1200 hours of fieldwork
- Passing score on school psychology praxis exam
- Completion of requirements in internship syllabus
- Grade of Satisfactory (S) for both semesters in the internship course
- Ratings at the “expected level” or higher on all competency areas from internship supervisor
- Completion of all internship paperwork

National Association of School Psychologists’ (NASP) Requirements for the Field Site

“The internship placement agency provides appropriate support for the internship experience including:

- A written agreement specifying the period of appointment and any terms of compensation
- A schedule of appointments, expense reimbursement, a safe and secure work environment, adequate office space, and support services consistent with that afforded agency school psychologists;
- Provision for participation in continuing professional development activities;
- Release time for internship supervision; and
- A commitment to the internship as a diversified training experience.”*

Minimum Requirements for Satisfactory Completion of Internship Experience

The internship is distinct from and occurs after the successful completion of the practicum experience. The National Association of School Psychologists (NASP, 2000) defines the internship as “a supervised, culminating, comprehensive, pre-degree field experience through which school psychology candidates have the opportunity to integrate and apply professional knowledge and skills acquired in prior courses and practica, as well as to acquire new competencies consistent with training program goals” (p.18). Satisfactory scores on all four comprehensive case reports are required for successful completion of the internship (see page 40). Collectively, these case reports provide students with an opportunity to demonstrate their performance with respect to the NASP 2010 training domains and NU’s training goals. Students also must pass the Praxis exam in school psychology in order to successfully complete the internship course. NU’s program director must receive documentation of the overall and specific content Praxis scores before the end of the spring semester.

Students typically complete their internship on a full-time basis by completing the required 1200 hours during the course of one school year. However, with written approval from the Director of

Clinical Training, students can complete the internship on a half-time basis by completing the 1200 hours during two consecutive years.

A minimum of 600 of the 1200 internship hours must be completed in a school setting, under the field supervision of a department of education, state certified / licensed school psychologist. The other 600 hours may be completed in a non-school setting under the supervision of a state licensed psychologist. (See the “Internship Log” at [http://www.schoolpsychology.neu.edu/current.html](http://www.schoolpsychology.neu.edu/current.html), and “The End of Year Internship Form” for the forms that are used to document these hours.) Field supervisors provide a minimum of two hours supervision each week. Students are expected to follow the school calendar of the school district where they are doing their internship. All students are expected to remain in their internship placement until the end of their district’s academic year.

The expectation is that internship students will have attained sufficient knowledge and skill from their practicum so that they can begin their internship with direct experiences in assessment, intervention, and consultation. They are expected to increase their competency to levels of independent functioning in these and other areas related to 2010 NASP’s domains of practice throughout the academic year of the internship experience. The internship supervisor in consultation with university supervisor and the graduate student will determine the student’s readiness for more advanced experiences. In order for graduate students to attain a satisfactory grade in the internship courses, they must demonstrate competency in the following areas: (a) professional identity and professional behavior, (b) assessment, (c) intervention / prevention, (d) program evaluation and applied research, (e) culture and diversity, (f) ethical and legal issues, and (g) communication and information technology. The relationship between these training goals and NASP’s training domains is provided on page 65.

Approval and Location of Internship

The program director shall approve all internship placements. If a student makes an oral or written commitment to an internship site, he / she is ethically obligated to follow through and do her field experience at that site, regardless if a more attractive alternative becomes available at a later date. Many times, internship offers from out of state will occur later in the year than offers from within Massachusetts. Thus, students need to plan accordingly, and if there is the possibility that a student might accept a later offer, he / she must inform the potential supervisor of this possibility. If a student wants to change a commitment to a field site, he/she needs written approval from the director of clinical training.

During both fall and spring semesters of the internship year, all students will register for the 3-credit internship seminar course. All students who have an internship setting within Massachusetts must attend the seminar meetings on campus. Students enrolled in the Northeastern University state-approved school psychology program and who, upon completion of degree and licensure requirements, wish to obtain an educator's license to practice in Massachusetts as a school psychologist must complete the entire program in Massachusetts, including the 1200 hours of supervised internship (also referred to as an advanced practicum by the Massachusetts Department of Education). Furthermore, because of the MA Department of Education’s requirement for face-to-face meetings among the student, field supervisor and university supervisor, the program will not endorse students for educator's license to practice in Massachusetts as a school psychologist if that internship site is more than 50 miles from Boston. No Massachusetts internship placement shall occur outside of a 50-mile radius of Boston without the prior written approval of the training director. The Massachusetts' educator's licensure process is more cumbersome for individuals whose transcripts do not bear the endorsement statement.

The internship seminar meets 6 times per semester. Students whose internship sites are located within 50 miles from Boston are required to attend the seminar meetings. Students whose internship sites are located more than 50 miles from Boston are not required to attend the seminar meetings. However, they need to make special arrangements to stay in contact with their university supervisor.
These arrangements will be made at the beginning of the fall semester, and must be consistent with the “Guidelines for Distance Communication”.

**Competencies to Be Further Developed and Evaluated in Internship**

Based on NASP 2010 standards, internship students are expected to complete activities to attain the following school psychology competencies that are consistent with our program objectives and emphasize human diversity, and provision of professional school psychology services that result in direct, measurable, and positive impact on children, families, schools, and/or other consumers.

**Professional Identity and Behavior**

Internship students are expected to demonstrate commitment to the profession of school psychology and comport themselves in a professional manner. This includes but is not limited to seeking out professional development opportunities, joining professional associations, reliability, prompt completion of tasks, attendance, and appropriate collaborations and interactions with co-workers and supervisors.

**Assessment**

Students are expected to complete at least eight assessment reports, at least one of them should reflect an assessment with a student from a culturally diverse background and should demonstrate awareness of cultural factors. Students are expected to include at least one assessment case report in their internship comprehensive case reports (that demonstrate their competencies and are evaluated by the school psychology faculty, see page 52. These comprehensive case reports should reflect their best work. The report must be a full and comprehensive psycho-educational assessment of a student in multiple domains of functioning. Although no single report will include all the assessment methods listed below, it is expected that the graduate student will attain competency with all the methods by the end of the internship experience. The assessments are expected to reflect a scientific-problem-solving approach to assessment. The assessment results are expected to lead to data-based decision making and/or intervention.

Assessments shall include the following methods:

1. Interview teachers, parents, children/adolescents, and other relevant parties.
2. Administer, score, and interpret assessments pertinent to determining a student’s eligibility for special education. These assessments may occur within a Response to Intervention (RTI) framework or within the more traditional psychological assessment framework.
3. Conduct systematic direct observations of the student in the classroom and/or other relevant settings.
4. Evaluate students’ behavior functioning using functional behavior assessment (FBA) methods. Based on the results of the FBA, develop a behavior intervention plan.
5. Evaluate students’ behavioral, social and adaptive functioning by means of rating scales (e.g., BASC, CBCL, Vineland).
6. Evaluate students’ academic progress by means of
   (a) individually-administered norm referenced achievement tests AND
   (b) curriculum-based assessment probes.
7. Review relevant permanent products and records about the student (e.g., attendance, handwriting samples, group achievement test scores).

In addition, internship students are expected to:

1. Develop data-based and practical recommendations as a result of the assessment.
2. Write comprehensive case reports from an ecological perspective.
3. Present at least three case reports to a team meeting of parents, teachers and special education staff members.
**Intervention: Counseling**

Internship students are expected to counsel at least six students during the school year, either individually or in groups. Counseling shall include:

1. Assessing the student's problems and the relevant context of the problems, and identifying student's strengths.
2. Developing counseling goals for the student in collaboration with students and relevant others.
3. Developing and implementing a theoretically sound and practical counseling plan for the student(s) that is evidence-based and data-driven.
4. Evaluating the outcomes of counseling through multiple measures and multiple sources, at different points of the counseling series, and, if necessary, revising the plan.
5. The outcomes of counseling should be documented by data (e.g., pre and post tests, improvement in learning, social interaction, etc.).

In addition, internship students are expected to keep a written record of the case, which includes progress notes of counseling sessions. A report on at least one case shall be included in the comprehensive case reports (see p.48).

**Intervention: Consultation and Collaboration**

Internship students are expected to provide consultative assistance to at least four school staff and two parents during the school year. Interns should demonstrate good understanding of family-school relationships, respect for parents, and effective communication skills when working with parents. At least one consultation case report should include a family-school collaboration component. Consultation shall involve:

1. Helping the consultee clearly identify problems and factors that might be contributing to the problems.
2. Developing consultation goals in collaboration with the consultee.
3. Developing and implementing a theoretically sound and practical intervention plan.
4. Evaluating the outcomes of and the consultee's satisfaction with consultation, and if necessary adapting the intervention plan.
5. Communicating with others during design, implementation, and evaluation of the consultation case appropriately;
   - used active listening and expressed empathy;
   - limited the length and number of tangential discussions;
   - summarized the important points;
   - conducted the meetings at an appropriate tempo;
   - avoided speaking too much or too little.

Reports of at least one of these cases shall be included in the comprehensive case reports.

**Intervention: Prevention**

Internship students are expected to become familiar with the prevention programs conducted in the internship site, including procedures for crisis intervention and prevention in the particular school system. Furthermore, interns are expected to be involved with the planning (or improvement) and evaluation of at least one school-wide program that promotes students’ learning or student-centered prevention program or professional development. Planning and evaluating activities shall encompass:

1. Identifying a service delivery need
2. Setting or modifying program goals
3. Designing or redesigning a prevention program
4. Evaluating the program’s implementation and outcomes
One case study relating to either promotion of learning school-wide or prevention or professional development shall be included in the comprehensive case reports.

**Culture and Diversity**
Internship students are expected to demonstrate multicultural competencies in all aspects of their internship experiences, including assessment, counseling, prevention and consultation. The culturally competent school psychologist is able to sensitively deliver services to students and parents from diverse cultural, racial, and linguistic backgrounds. The three broad-based areas of multicultural competencies include: (a) attitudes and beliefs, (b) knowledge, and (c) skills. Awareness, knowledge and skills pertaining to multicultural issues must be reflected in materials submitted as part of the comprehensive case reports.

**Program Evaluation and Applied Research**
At a minimum, Internship students shall:
1. Share their knowledge about empirically-supported practices through presentations, handouts for parents and staff, and other means.
2. Be involved in evaluating the implementation and outcomes of at least one prevention program.

**Ethical and Legal Issues**
Consistent adherence to the ethical standards and state and federal laws relevant to school psychology practice is expected. Students shall demonstrate sensitivity to possible cognitive, ethnic, racial, and sexual biases. Students shall demonstrate knowledge of state and federal laws. Internship students shall be familiar with and conform to the ethical standards established by the National Association of School Psychologists and the American Psychological Association. Knowledge of ethical and legal issues should be reflected in materials submitted as part of the comprehensive case reports.

**Communication and Information Technology**
Internship students shall demonstrate their competence in:
1. Written communication by means of assessment reports, case summaries and other written documentation provided for the portfolio.
2. Oral communication skills by means of reports given at team meetings.
3. Information technology by either participation in an online discussion forum, appropriate use of e-mail for communicating with either staff or parents, or the documentation of the use of online resources for locating identifying evidence-based practices.

Knowledge and skills pertaining communication and information technology must be reflected in materials submitted as part of the comprehensive case reports.

**Special Competencies**
The above reflects minimum requirements. Most students will surpass these requirements in their internship experience. In addition, students who rapidly achieve proficiency in one or more of these areas may choose to supplement their training with specialized competencies, such as planning professional development programs or assisting with applied research.
Three University/Field Supervisor Contacts

During the internship year, three formal contacts between the university supervisor, the field supervisor, and the graduate student will occur at the internship setting during the school year for the purpose of discussing the student's progress. For out-of-state students, the meetings will be held via conference calls. After each meeting, the three parties put their initials on a form that documents the occurrence of the meeting (See form on page 29. In some instances, this may require using postal mail or scanned e-mail attachments). In addition, university supervisors, field supervisors, and students will communicate via email and telephone on an ongoing basis to address needs as they arise.

During the first contact, which will occur during the beginning of fall semester, the requirements for national certification and Northeastern University's school psychology training goals are discussed. These training goals are categorized in seven broad areas: (a) professional identity and professional behavior, (b) assessment, (c) intervention / prevention, (d) program evaluation and applied research, (e) culture and diversity, (f) ethical and legal issues, and (g) communication and information technology. During the course of their internship, students are expected to attain significant breadth and depth of skills in these training areas. An internship agreement (see “Internship Agreement”) and training plan (see “Training Plan”) must be signed and completed either prior to or during this meeting.

At the second contact, which will occur during the beginning of the spring semester, the graduate student's progress relative to the training goals is discussed. If deficiencies are noted with respect to the internship setting or the intern's progress, a plan is developed to address the deficiencies. The second site visit will include a focus on the intern’s comprehensive psycho-educational assessment skills and an opportunity to provide feedback. Page 68 includes a rubric which the university supervisor will use to provide feedback. Interns are encouraged to review the rubric before submitting their assessment report. At the third contact, the university supervisor and the field-based supervisor will determine whether or not the graduate student has attained the competency level needed to function independently as a school psychologist and apply for national certification. If the student has not attained competency in one or more areas, he / she might be required to complete additional internship hours.

Course Voucher

As a means of expressing our gratitude to our field supervisors, Northeastern University grants a voucher for one course to the participating school system or agency. It is necessary to make a written request, on the school systems’ (or agency’s) letterhead, to obtain the voucher. The request for a voucher should be addressed to:

Cherish Grant-Dixon, Office Assistant
Department of Applied Psychology
404 international Village, Northeastern University
Boston, MA 02115

Resolving Internship Problems

Although infrequent, problems and/or conflict can develop during the field experience. Therefore, it is important to have a fair and consistent method that can be utilized in a systematic manner for problem resolution. Either the supervisor or the supervisee can initiate action to resolve the perceived problem.

1. The first step is for the supervisor and supervisee to jointly discuss any emerging concerns in an open and honest fashion. Moreover, it is important that this be done in a timely manner. It may be
advantageous to document the outcomes of the meeting.

2. Should that be insufficient, the university supervisor should become involved to provide assistance. The university supervisor will notify the university’s program director that concerns have been noted and will specify these concerns. At that time, a plan will be developed by that contains specific goals that are agreed upon in writing by all three parties (i.e., the student, site supervisor, and the university supervisor). A date for a review of the plan will be specified.

3. If resolution/improvement does not occur within the temporal framework agreed upon, the program director will be requested to mediate. At that time, previous concerns and plans to address the concerns will be reviewed. All parties will then agree upon additional specific, written plans and a timely follow-up review date will be established.

4. Finally, if problems continue, the core faculty of the school psychology program will meet to determine an appropriate course of action. Such actions may include changing supervisors, changing sites, repeating the fieldwork experience or the student’s termination from the program.

**Deadlines for Essential Paperwork for the Program and Certification**

**Forms and Due Date in the Fall Semester:**

- **September 30:** Internship Agreement Form (See detailed directions on how to request a contract through the E*Value, p.73).
- **September 30:** Internship Training Plan (submit to university supervisor)
- **Last class of fall semester:**
  - Fall Assessment of Internship Student's Progress (multi-page assessment of your skills rated by field supervisor)
    - Link sent to supervisors by E*Value as timed on the academic semester schedule.
  - Logs (E*Value)
    - Logs can be generated using the E*Value “Time Tracking” tool (see directions in E*Value, p.75)

The following documents must be submitted no later than the last class of the spring semester (hardcopy to your university supervisor).

- Interim Logs (until last class)—E*Value
  - Logs can be generated using the E*Value “Time Tracking” tool
- End of Year Internship Form (completed by student, hardcopy)
  - The total hours for each sub-category of training can be generated by using the E*Value “Time Tracking” tool. (see directions in the E*Value, p.78)
- Spring Assessment of Internship Student's Progress (multi-page assessment of your skills rated by field supervisor)
  - Link sent to supervisors via E*Value as timed on the academic semester schedule.
- Assessment of Internship Field Site (completed by student)—E*Value
  - The site supervisor will not see your responses.
- Assessment of University's Support of the Internship Experience (completed by field supervisor)—E*Value
  - The link will be sent to supervisors via E*Value as timed on the academic semester schedule.
- Satisfaction with the School Psychology Program Questionnaire (completed by student)—E*Value
  - Responses are anonymous; the school psychology program director will only be able to view the data in aggregate.
• **Seminar course evaluation** - E*Value
  - Students complete on E*Value about seminar leader/seminar, results go to program director/university seminar leader in aggregate

The following documents on the checklist (on p. 43) are due to your university supervisor no later than **June 15**:

- **Final logs—E*Value**
- **MA DESE Form: Initial License as a School Psychologist** *(2 page document with initials verifying 3 contacts & yes/no evaluation of competency areas)* (hardcopy)
- **Certification Clarification Form** (hardcopy)
- **Educator Licensure Information Sheet: Request for Initial License** (hardcopy)
- **A photocopy of NU transcript or a hard copy of your electronic transcript from myNEU**
- **Verification of School Psychology Program Completion form (NCSP Application)** (hardcopy)
  (This form can be found from NASP website: [http://www.nasponline.org/certification/becomeNCSP.aspx](http://www.nasponline.org/certification/becomeNCSP.aspx))
- **School Psychology Praxis Scores, including all subtests** (Scan and enter into E*Value) (See directions in E*Value, p.72).
- **Copy of an e-mail from the university supervisor indicating that all internship requirements have been met and all forms (via E*Value and hard copies listed above) have been completed.**

*Failure to submit documents by that date can jeopardize timely institutional endorsement for state certification/licensure and national certification and postpone endorsement.*

Students who complete their internship in Massachusetts are eligible to be endorsed by Northeastern’s licensing officer to the MA DESE for their MA school psychology license. Students who complete their internship out-of-state must apply to the MA DESE for license on their own. The school psychology program director will provide a letter to verify program completion for all students who have met all program requirements and have submitted all paperwork. Faculty will not write any letters to a potential employer or a state department of education pertaining certification until all paperwork has been received by the program director.
Overview of the School Psychology Internship Evaluation System

During the internship year, both formative and summative performance-based evaluations of interns are completed by both program faculty and field-based supervisors. The systematic and comprehensive assessments are to ensure that interns demonstrate professional work characteristics and attain competencies needed for effective practice as school psychologists (according to 2010 NASP standards). In addition to the evaluations of interns, internship sites and university program are also evaluated. The overarching purpose of the school psychology internship evaluation system is to provide data so that judgments can be made about different elements of the internship program. These elements are discussed below. The obtained data are used to assess the graduate student's progress and to further develop and improve the internship program and the overall school psychology program at Northeastern University. The evaluations cover the following:

1. The graduate student's progress with respect to important school psychology knowledge and skills. In this regard the "Assessment of Internship Student's Progress" questionnaire is completed by the field supervisor two times during the course of the internship experience: immediately prior to the end of the fall and spring semesters.

2. The quality of the university’s training and supervision. Two questionnaires are used to assess this area. At the end of the internship experience, the graduate student and field supervisor individually complete the questionnaire, "Satisfaction with the University's School Psychology Program". At the end of the internship experience, the field supervisor completes the "Assessment of University's Support of the Internship Experience" questionnaire.

3. The quality of the internship site's training offerings and supervision. To assess this area, at the end of the internship experience, the graduate student completes the "Assessment of the Internship Field Site" questionnaire.

The evaluations are completed on an online clinical management tool “E*Value” (see detailed directions about how to use the E*Value on p.72). The following are three evaluation forms on the E*Value:

- Assessment of the Internship Student's Progress
- Assessment of the Internship Field Site
- Satisfaction with the School Psychology Program
  
  (Assessment of University's Support of the Internship Experience, to be completed independently both by field supervisor and internship student)

### Area 4: Progress in Intervention – Consultation and Collaboration (Question 7 of 16 - Mandatory)

1. In setting goals, takes into consideration affective, behavioral, social, adaptive and academic needs of the student
   - Much below expected level of a practicum student: 1.0
   - Below expected level of a practicum student: 2.0
   - At the expected level of a practicum student: 3.0
   - Above expected level of a practicum student: 4.0
   - Much above expected level of a practicum student: 5.0
   - Not Observed/No Opportunity to Assess: 0

2. Uses evidence-based strategies which are appropriate to the needs of the client or student
   - Much below expected level of a practicum student: 1.0
   - Below expected level of a practicum student: 2.0
   - At the expected level of a practicum student: 3.0
   - Above expected level of a practicum student: 4.0
   - Much above expected level of a practicum student: 5.0
   - Not Observed/No Opportunity to Assess: 0

3. Demonstrates communication skills (e.g., open-ended questions, reflection of feelings, paraphrasing, and summarization, etc.)
   - Much below expected level of a practicum student: 1.0
   - Below expected level of a practicum student: 2.0
   - At the expected level of a practicum student: 3.0
   - Above expected level of a practicum student: 4.0
   - Much above expected level of a practicum student: 5.0
   - Not Observed/No Opportunity to Assess: 0

4. Develops rapport with client
   - Much below expected level of a practicum student: 1.0
   - Below expected level of a practicum student: 2.0
   - At the expected level of a practicum student: 3.0
   - Above expected level of a practicum student: 4.0
   - Much above expected level of a practicum student: 5.0
   - Not Observed/No Opportunity to Assess: 0

5. Uses data in making counseling decisions
   - Much below expected level of a practicum student: 1.0
   - Below expected level of a practicum student: 2.0
   - At the expected level of a practicum student: 3.0
   - Above expected level of a practicum student: 4.0
   - Much above expected level of a practicum student: 5.0
   - Not Observed/No Opportunity to Assess: 0

6. Is aware of the strengths and limitations of counseling
   - Much below expected level of a practicum student: 1.0
   - Below expected level of a practicum student: 2.0
   - At the expected level of a practicum student: 3.0
   - Above expected level of a practicum student: 4.0
   - Much above expected level of a practicum student: 5.0
   - Not Observed/No Opportunity to Assess: 0

7. Demonstrates crisis intervention skills
   - Much below expected level of a practicum student: 1.0
   - Below expected level of a practicum student: 2.0
   - At the expected level of a practicum student: 3.0
   - Above expected level of a practicum student: 4.0
   - Much above expected level of a practicum student: 5.0
   - Not Observed/No Opportunity to Assess: 0

*(Question 2 of 3)*
Suggestions for improving the School Psychology Program   (Question 3 of 3 )
Massachusetts Department of Education Form: Initial License as a School Psychologist

Part I TO BE COMPLETED BY THE STUDENT

1. Name: __________________________

2. Address: ________________________________

3. Summary of Practicum I Experience (Attach Practicum Evaluation Form)
   Practicum Location: __________________________________________________________

   Starting and Ending Dates: ______________________________________________________

   Grade Level: _______ Total Number of Clock Hours: ____________________________

   Practicum Course #: ___________ Title: __________________________________________

   Number of Semester Hours: ________ When Taken: _____________________________

   Number of Hours: Observing____ Assisting____ Assuming full responsibility ________

4. Summary of Internship (also called “Advanced Practicum” for educator’s licensure in MA)
   Experience

   Internship Location(s): _____________________________________________________

   Starting and Ending Dates: ____________________________________________________

   Grade Level: _________________ Total Number of Clock Hours: ________________

   Internship Course #: _______________ Title: _________________________________

   Number of Semester Hours: __________ When Taken: _________________________

   Number of Hours: _____Assessing,_____, Counseling,_____,Consulting
   _____Prevention,_____ Program Evaluation / Applied Research

Part II TO BE COMPLETED BY THE UNIVERSITY SUPERVISOR

Name: _______________________________ Position: _______________________________

The applicant has completed an internship designated by the college as partial preparation for national certification in school psychology.

Signature________________________
Part III TO BE COMPLETED BY THE COOPERATING PRACTITIONER

Name: ___________________________ Position: ___________________________

School System: ___________________ Tenure Status: ______________________

State School Psychology Certificate / Licensure #: _________________________

Part IV TO BE INITIALED AS INDICATED*

1. Standards and procedures for evaluation, at the beginning of the fall semester on (date)

Applicant: ______ Cooperator: _______ University Supervisor: ______

2. The applicant’s progress, at a midpoint in the experience on (date)

Applicant: ______ Cooperator: _______ University Supervisor: ______

3. A summary evaluation of the applicant’s performance, with ample time for the applicant to raise questions or objections, at the close of the experience on (date)

Applicant: ______ Cooperator: _______ University Supervisor: ______

Part V TO BE COMPLETED BY THE COOPERATING PRACTITIONER AND THE UNIVERSITY SUPERVISOR

Is the applicant competent in the following areas? (Please circle response)

| Area #1: Professional Identity and Behavior | Yes | No |
| Area #2: Assessment | Yes | No |
| Area #3: Intervention / Prevention | Yes | No |
| Area #4: Program Evaluation / Applied Research | Yes | No |
| Area #5: Culture and Diversity | Yes | No |
| Area #6: Ethical and Legal Issues | Yes | No |
| Area #7: Communication and Information Technology | Yes | No |

Cooperator: ___________________________ Date: _____________

College Supervisor: ___________________________ Date: _____________

Mediator (if needed) ___________________________ Date: _____________

Certification Clearance Form

Northeastern University
School Psychology MS/CAGS Program
Certification & Educator’s License Clearance Checklist Form

School Psychology MS/CAGS Program
Dept. of Counseling & Applied Educational Psychology
Northeastern University

Student Name: _____________________________

Advisor Name: _____________________________

Date: _____________________________

Prior to being cleared for graduation and endorsement for certification, students are required to
complete and submit this form to the program director no later than June 30th.

___Has successfully completed all the courses: with a grade of B (3.0) or higher in all courses, and an
overall GPA average of at least B+ (3.33)

___Passing Praxis score

___Satisfactory professional behavior and competencies in internship

Please attach the following to this form:

- Your transcript from Myneu (including grades from both semesters of the internship course)
- E-mail approval from university internship supervisor that all obligations have been completed
  in internship
- A copy of your Praxis score report with subtest scores
- Internship documents including
  - Internship log and log summary
  - End of Year Internship Form
  - Mass. DOE form: Initial License as a School Psychologist

*Failure to submit documents by that date can jeopardize timely institutional endorsement for state
certification/licensure and national certification, and delay endorsement. Faculty will not write any
letters to a potential employer or a state department of education pertaining certification until all
paperwork has been received by the program director.
Applying for Massachusetts Educator Licensure

Congratulations on nearing the significant accomplishment of becoming a licensed educator! The following is the preferred method for applying for Licensure in Massachusetts. Students are responsible for applying for their educator’s license and completing the appropriate requests for Institutional Endorsement. Use the Department of Elementary and Secondary Education’s (DESE) ELAR to apply and check your licensure status.

Steps for applying On-Line through the DESE’s secure portal.

1. Go to www.doe.mass.edu/educators. This brings you to “Educator Services.” In the upper right-hand corner’s drop down menu, choose “ELAR – Educator Licensure and Recruitment.” At the “DESE Security Portal” page, click on “Create ELAR Profile” beneath the login box and follow the instructions if you have not completed a Profile before.
   - After you have created a username and password, choose ELAR welcome page, then chose “Apply for a new license.”
   - Select Field, Level and Type:

   **Examples**
   - Field: Academic Teacher
   - Field: Biology
   - Level: 8-12
   - Type: *Initial*
   - Field: Academic Administrator
   - Field: Principal/Assistant Principal
   - Level: 5-8
   - Type: *Initial*

   - You will need a credit card number for payment ($100 for first license, $25.00 for each additional license.)

2. While you are on-line, print the “Step 4 Confirm Application” or any page provides which evidence of application for license. Attach a copy of this to your “Ed Licensure Information Sheet.”

3. Transcript Requirements: Please see directions in the checklist on the next page.

4. Complete the “Educator Licensure Information Sheet” and submit it along with copy of the “Step 4 Confirmation” and Practicum (or Internship) Form to your Program Director. The Program Director will send completed and signed sheets to the Licensure Officer.
## REQUEST FOR INITIAL LICENSE FORM

<table>
<thead>
<tr>
<th>Circle One:</th>
<th>Graduate</th>
<th>Undergraduate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Last Name:</td>
<td>First Name:</td>
<td></td>
</tr>
<tr>
<td>MEPID:</td>
<td>Date of Birth:</td>

</tr>
</tbody>
</table>

### Check List:

- [ ] Apply online at [http://www.mass.gov/edu/gateway](http://www.mass.gov/edu/gateway) any time before graduation for **INITIAL** License and SEI Endorsement.

- [ ] Print “Step 4 Confirm Application” page **OR** any form of application confirmation. (Licenses will not be endorsed without some form of application confirmation.)

- [ ] Request a **hard** copy of transcript from the University Registrar and ensure that it includes the final grades posted for all licensure courses, including practicum and seminar courses. This should be sent to your residence (or picked up) and uploaded to your ELAR account.

- [ ] First License candidates who hold non-NEU degrees should have their non-NEU transcripts (Undergraduate and/or Graduate) sent to their residence and then upload to their ELAR account.

- [ ] Program Director verifies that CAP documents or Internship verification (School Psychology) is on file.

- [ ] Form must be signed and dated by Program Director.*

---

**Student Signature**

I hereby confirm that the student above has completed a state approved educator licensure program at the level indicated.

End-of-Program Paperwork Checklist for School Psychology Licensure

Student Name: _______________________________
Permanent Email Address: _______________________________
Permanent Mailing Address: _______________________________

Paperwork Included for Program Completion and Licensure Endorsement

__ Final logs—E*Value
__ MA DESE Form: Initial License as a School Psychologist (2 page document with initials verifying 3 contacts & yes/no evaluation of competency areas) (hardcopy)
__ Certification Clarification Form (hardcopy)
__ Request for Initial License Form (Educator Licensure Information Sheet) (hardcopy)
__ Verification of School Psychology Program Completion form (NCSP Application) (hardcopy)
   (This form can be found from NASP website: http://www.nasponline.org/certification/becomeNCSP.aspx)
__ School Psychology Praxis Scores, including all subtests (Scan and enter into E*Value) (See directions in E*Value, p.72).
__ Copy of an e-mail from the university supervisor indicating that all internship requirements have
   been met and all forms (via E*Value and hard copies listed above) have been completed.

Important Notes:
1. Students should print a copy of this checklist and attach on top of the documents they submit.
2. Students should keep copies of any paperwork they receive.
3. Students should ask their university supervisor and field supervisor to complete the NCSP Internship Verification Form. This form should not be handed in to the program director in June.
March 3, 2008

Educator Preparation Programs

Advisory: Guidelines for Candidate Record Keeping

Effective immediately, the following advisory clarifies definitions and procedures related to candidate record keeping for sponsoring organizations that have state approval to operate educator preparation programs.

Candidate Records

Candidate Folder

The purpose of the candidate folder is to illustrate and document the history of a candidate’s experiences and progress in meeting all requirements of a state-approved educator preparation program.

- The candidate folder encompasses all documentation required to verify a candidate’s entry, enrollment, participation in, and manner of exit from a state-approved educator preparation program.
- The candidate folder must be maintained for all candidates, whether or not they have successfully completed the program.
- Programs are required to retain contents of the candidate folder for seven years following the date of a candidate’s exit from the program.
- Programs are required to retain transcripts and endorsement statements in perpetuity. These documents stand as the organization’s official verification of a candidate’s successful completion of the state-approved program.
- Contents of candidate folders (including transcripts and endorsement statements) may be maintained electronically, provided they are readily available for review by Department staff.
# Composition and Contents of the Candidate Folder

<table>
<thead>
<tr>
<th>Candidate Folder Documentation</th>
<th>Contents</th>
</tr>
</thead>
</table>
| **Admissions Materials**       | All materials required by the organization for admission to the program, which may include:  
  - Application to the program  
  - Letters of recommendation  
  - Resume  
  - Transcripts of prior education, including undergraduate degree(s)  
  - Test Results (including MTELs)  
  - Proof of Preliminary license  
  - Employment Verification Form (to document years of employment under a prerequisite Initial license) |
| **Advising Records**           | Programs are required to document at least three advising sessions over the course of a candidate’s participation in the program. Documentation may include:  
  - Case management log  
  - Form deemed appropriate by the organization to track advising. |
| **Course Waivers**             | Programs are required to document course waiver decisions in the candidate folder through forms and supporting documents (e.g., transcripts and/or syllabi of courses accepted to justify the waiver). |
| **Creation of Candidate Profiles in ELAR** | The Department encourages programs to require candidates to create their ELAR profile upon enrollment in the state-approved educator preparation program, to facilitate tracking and documentation. |
| **Practicum Waiver Decisions** | Under appropriate circumstances, programs have the authority to waive up to 50% of a required practicum. Programs are required to document practicum waiver decisions through forms and supporting documents (e.g., a written rationale, with sign off by the program director, to justify the waiver decision). |
| **Performance Assessment (Initial License)**  
  - Preservice Performance Assessment (PPA)  
  - Administrator Performance Assessment | The Performance Assessment (PPA or Administrator Performance Assessment) is required as the summative evaluation of a candidate’s proficiency in the Professional Standards of the Initial license. All elements of the Performance Assessment (PPA or Administrator Performance Assessment) must be maintained according to Department Guidelines, including license-specific questions. |
<p>| <strong>Pre-Practicum Log (Initial License)</strong> | Programs are required to document time committed to and activities included in the Pre-Practicum component of the state-approved educator preparation program. |
| <strong>Program Authorization for Out-of-State or Private School Practicum Placement (Initial Programs)</strong> | Out-of-state or private school practicum placement should be the rare exception in state-approved programs. Organizations are required to maintain written documentation of the rationale and the specific provisions made to ensure that candidates complete a practicum experience that is in adherence with the regulations. |
| <strong>Program Completion Materials:</strong> | Organizations are required to retain official transcripts |</p>
<table>

<td>and endorsement statements as part of the candidate folder for seven years from the date of program completion. The transcript and endorsement statement stand as the official verification of a candidate’s successful completion of a state-approved educator preparation program and thus should be maintained by the organization in perpetuity.</td>
</tr>
<tr>
<td>Mentoring Logs (Professional Programs)</td>
<td>For those programs that are approved with inclusion of the advanced mentoring component, documentation of the content and activities included in the mentoring segment must be retained in the candidate folder.</td>
</tr>
</tbody>
</table>
Guidelines for Distance Communication

The university supervisor, field supervisor, and student are all responsible for appropriately using the telephone, postal mail, and e-mail to communicate with one another, as well as transmitting information in a timely manner about the internship.

At minimum, three-way (i.e., student, field supervisor, university supervisor) conference calls must occur near the beginning, middle, and end of the internship.

Leave important decisions to telephone contacts or face-to-face meetings. Use e-mail for generating possible alternatives.

Sometimes, it is easier to clarify an issue with a brief telephone conversation or an in-person meeting than e-mail. Use e-mail, telephone, and in-person meetings as needed.

Remember that many social cues are absent when using electronic mail. Therefore, don’t use phrases that might be misconstrued as being critical, insulting or dismissive. When you are unsure of the intent or meaning of a message, ask the sender to clarify the point.

If the matter is urgent and you are unsure of when the person will read your e-mail message, don’t hesitate to use the telephone.

Do not include information in e-mail that will lead to the possible identification of a client or colleague. For example, use a pseudonym in replace of the actual name. Be careful to protect the identity of the others.

Do not include anything in an e-mail message that you couldn’t publicly defend. E-mail can be subpoenaed as evidence in court cases.

Indicate when you want the person to respond to you. If your need is urgent, clearly communicate the urgency.

If you won’t be available for an extended period of time (e.g., vacation), inform people of your timetable so that they can plan ahead.
Guidelines for Preparing Comprehensive Case Studies

The purpose of the comprehensive case studies is for the internship student to demonstrate that he / she has obtained the basic competencies required to be an effective beginning school psychologist. In particular, these cases represent authentic learning experiences by which the internship student can provide evidence that he/she has obtained the basic competencies pertaining to the National Association of School Psychologist’s (NASP) 2010 Standards as well as to the training goals of Northeastern University’s (NU) specialist level (MS/CAGS) program in school psychology.

Toward these aims, internship students must prepare at least two comprehensive case studies each semester and a total of four cases across two semesters. These comprehensive case reports need to be incorporated into the student’s updated portfolio. Students should exclude information (e.g., names) that might lead to the identification of individuals.

During the internship year, students must complete the following case reports:

- Consultation: Academic Problem
- Consultation: Behavioral Problem
- Counseling Case
- Prevention/Promoting Learning School-Wide or Staff Professional Development

Each case addresses a subset of NASP standards and NU training goals, but collectively the four cases address all NASP standards and training goals. This coverage is delineated in the tables below.

Comprehensive Case 1: Consultation on Academic Problem

NASP Standards Addressed
II Data-Based Decision-Making and Accountability
III Consultation and Collaboration
4.1 Interventions and Instructional Support to Develop Academic Skills
VI Family–School Collaboration Services
VII Diversity in Development and Learning
8.1 Research and Program Evaluation
8.2 Legal, Ethical, and Professional Practice

Program Training Goals Addressed
- Assessment
- Culture and Diversity
- Ethical and Legal Issues
- Intervention: Consulting and Collaborating
- Program Evaluation and Applied Research
- Ethical and Legal Issues
- Communication and Information Technology

Comprehensive Case 2: Consultation on Behavioral Problem

NASP Standards Addressed
II Data-Based Decision-Making and Accountability
III Consultation and Collaboration
4.2 Interventions and Mental Health Services to Develop Social and Life Skills
VI Family–School Collaboration Services
VII Diversity in Development and Learning
8.1 Research and Program Evaluation
8.2 Legal, Ethical, and Professional Practice

Program Training Goals Addressed
  o Assessment
  o Culture and Diversity
  o Ethical and Legal Issues
  o Intervention: Consulting and Collaborating
  o Program Evaluation and Applied Research
  o Communication and Information Technology

Counseling Case Study

NASP Standards Addressed: Counseling Case
II Data-Based Decision-Making and Accountability
4.2 Interventions and Mental Health Services to Develop Social and Life Skills
VI Family–School Collaboration Services
VII Diversity in Development and Learning
8.1 Research and Program Evaluation
8.2 Legal, Ethical, and Professional Practice

Program Training Goals Addressed
  o Assessment
  o Culture and Diversity
  o Ethical and Legal Issues
  o Intervention: Counseling
  o Program Evaluation and Applied Research

Prevention Case Study

The internship student provides a report about his/her involvement in a school-wide or school district prevention program. Examples of prevention programs include: bullying prevention programs, crisis prevention/response, response to intervention (RtI) program, training parents in behavior management, health promotion programs such as the promotion of good eating habits or programs designed to increase physical activity. The internship student’s role in the program could encompass many different activities, including one or more of the following: needs assessment; evaluation of the program’s implementation or outcomes; program implementation; and training/technical assistance via inservice workshops, PowerPoint presentations, and distribution of information about empirically supported practices. Both a prevention program for students and a professional development program for staff can be conceptualized as system-level prevention that can promote student health, positive development among children, or prevent behavioral or academic problems.

NASP Standards Addressed: Prevention Case
II Data-Based Decision-Making and Accountability
III Consultation and Collaboration
5.1 School-Wide Practices to Promote Learning
5.2 Preventive and Responsive Services
8.1 Research and Program Evaluation

Program Training Goals Addressed

- Intervention: Consulting and Collaborating
- Intervention: Prevention
- Program Evaluation and Applied Research
- Communication and Information Technology

Comprehensive Case Reports during Internship Year: Scoring Guide

During both fall and spring semesters, students must satisfactorily complete two case reports. Across both semesters, they must satisfactorily complete four case reports. In order to earn a passing grade in internship, students must earn a passing score of 2 (meeting expectations for internship students) on each of the four case reports.

Scoring Guidelines for Each Section within a Case Study

Two criteria are considered in each section: (a) comprehensiveness and (b) adequacy of school psychology knowledge or skill. Quality of writing is rated for the entire case report. Each criterion is scored on the following scale: 3 = Above Expectations for Internship Students, 2 = Meets Expectations for Internship Students, 1 = Below Expectations (Unsatisfactory) for Internship Students.

Comprehensiveness (CO) refers to the extent to which the components of a section are addressed and the extent to which sufficient detail and/or examples are provided. A score of 3 (Above Expectations for Internship Students) is earned if all components are addressed in sufficient detail. A score of 2 (Meets Expectations for Internship Students) is earned if all components are addressed and almost all components are discussed in sufficient detail. A score of 1 (Below Expectations for Internship Students) is earned if one or more components are omitted or if multiple components are not discussed in sufficient detail.

Adequacy of School Psychology Knowledge or Skill (KS) denotes whether or not the information provided in a section indicates that an individual has attained the knowledge and/or skill level expected for an internship student with respect to the individual components and the integration of those components. A score of 3 (Above Expectations for Internship Students) is earned if most components reflect an advanced level of knowledge or skill for an internship student. A score of 2 (Meets Expectations for Internship Students) is earned if most components reflect a knowledge or skill level that is expected of an internship student. A score of 1 (Below Expectations for Internship Students) is earned if multiple components reflect a knowledge or skill level that is below the level expected for an internship student.

Quality of Writing (QW) refers to the use of succinct and clear language that is devoid of jargon, pejorative or judgmental language, grammatical problems, colloquial expressions, typographical and spelling errors. Sentences and ideas within and between sections are logically related to one another. A score of 3 (Above Expectations for Internship Students) is earned if most of the writing within a section reflects an advanced skill level. A score of 2 (Meets Expectations for Internship Students) is earned if most of the writing within a section reflects an adequate skill level. A score of 1 (Below
Expectations for Internship Students) is earned if most of the writing is problematic with respect to the above criteria.

<table>
<thead>
<tr>
<th>Scores (1 to 3)</th>
<th>Required Components for Each Section</th>
</tr>
</thead>
<tbody>
<tr>
<td>CO</td>
<td>A. Background and Context</td>
</tr>
<tr>
<td>KS</td>
<td>Description includes (a) type of school and community, (b) relevant system factors (e.g., family or school) that might affect the case, and (c) the behavior setting(s) where the problem occurs (e.g., number of people, stressors, types of activities, demands, relevant interpersonal or group process variables in classroom, etc.)</td>
</tr>
<tr>
<td>CO</td>
<td>B. Description of Student</td>
</tr>
<tr>
<td>KS</td>
<td>Description includes (a) student’s age, grade level, and educational placement, (b) apparent problem(s) in specific, behavioral terms, (c) student’s strengths, interests, and weaknesses, (d) relevant biological or developmental factors, and (e) relevant social, cultural or linguistic factors.</td>
</tr>
<tr>
<td>CO</td>
<td>C. Hypothesis Development</td>
</tr>
<tr>
<td>KS</td>
<td>Discussion includes (a) previous attempts resolve the problem, (b) the conditions under which the problem does and does not occur, (c) possible causal factors which are potentially controllable by either the student or consultee (e.g., antecedent, consequence, setting event), and (d) hypothesis about possible controllable causes of the problem. Description indicates that the internship student carefully considered the extent to which the problem reflects a skill and/or motivational deficit.</td>
</tr>
<tr>
<td>CO</td>
<td>D. Data Collection</td>
</tr>
<tr>
<td>KS</td>
<td>Data collection methods are appropriate given the nature of the referral problem and hypothesis, and given the developmental level, strengths and needs of the student. The assessment process takes into account the influence of biological, cultural, family and other social factors on academic skills (academic problem case study) or on behavior and social skills (behavior problem case study). The data collection section must include a graphic display of baseline and intervention phase data and a detailed description and rationale for data collected. All data collection forms are included. The description includes (a) direct and indirect data collection methods, (b) a measure of the student’s academic skills and if warranted a measure of the student’s cognitive skills, (c) who assessed what areas, (d) when assessments occurred, and (e) the extent to which the data collection plan was implemented as intended.</td>
</tr>
<tr>
<td>CO</td>
<td>E. Intervention Plan</td>
</tr>
<tr>
<td>KS</td>
<td>Description includes (a) any revisions made to operational definition as a result of data collection, (b) results of data collection and relevance for hypothesis, (c) graphical depiction of relationship between problem and one or more relevant variables (e.g., hypothesized function), (d) intervention goals and objectives that were derived from the data, and (e) a clear description, documentation, and justification of the intervention program. The justification should be based on the results of the data collection (i.e., assessment) and a review of the research on relevant interventions. The discussion indicates that the internship student took into consideration: (a) a broad-based understanding of the problem derived from the data collection, (b) relevant ecological factors, such as sociocultural aspects of the case and the classroom context, and (c) the individual characteristics of the student, including strengths, interests, and</td>

</table>
| CO | F. Evaluation of Intervention  
*The evaluation part of the report includes a detailed description of the extent to which the intervention was implemented as planned.* A summary of intervention outcomes is provided with respect to (a) goals, (b) individuals’ reactions to the intervention (at least the consultee and student), and (c) related effects. Goal attainment is assessed by using a five-point, Goal Attainment Scale (GAS) with a midpoint representing *no change* from baseline. Based on the available data, a judgment is made about to what extent any changes might be attributable to the intervention (i.e., impact of the intervention on the student). A summary of the student’s, consultee’s and relevant others’ reactions to the overall consultation process is provided. A description is provided of how and why the intervention plan will be modified as a result of the evaluation. In the **Appendix** of the report, there is a clearly labeled graph (using APA style) that compares pre- and post-intervention data with respect to intervention goals. |
| KS | |

| CO | G. Description and Critique of Process Issues  
A description and critique of the process issues in this case are provided, including a self-reflection that considers the extent to which the internship student:  
- used a systematic and reflective approach to problem-solving;  
- established a mutually rewarding and collaborative process;  
- took other people’s ideas, concerns and constraints into consideration in designing the data collection and intervention plans;  
- appropriately communicated with others during design, implementation, and evaluation of the consultation case;  
  - used active listening and expressed empathy;  
  - limited the length and number of tangential discussions;  
  - summarized the important points;  
  - conducted the meetings at an appropriate tempo;  
  - avoided speaking too much or too little.  
*The Internship student provided brief examples of his/her strengths and weaknesses with respect to the above behaviors.* |
| KS | |

| CO | H. Reference List of Articles Reviewed for Intervention Plan |
| KS | At the end of the case report, a list of references provides empirical support for one or more of the intervention strategies. References should be relatively recent and relevant to the nature of the problem. |

| CO | I. Appendix on Information Technology: Internship student summarizes how he/she appropriately used information technologies in this case. For example, information technology could be used in analyzing the data (e.g., graphing of data), developing forms for data collection or intervention, researching what interventions have empirical support, or communicating with teachers or parents. |
| KS | |

| CO | J. Appendix on Ethical and Legal Issues: A description is provided of how the internship student abided by relevant NASP ethical standards and laws in collaborating with others, conducting the assessment, and designing and implementing the intervention. Examples are provided and specific standards and laws are cited. A description is provided of what names or other possible identifying information were changed or omitted from the report to protect the anonymity of individuals. |
| KS | |
Use succinct and clear language that is devoid of jargon, pejorative or judgmental language, grammatical problems, colloquial expressions, typographical and spelling errors. Sentences and ideas within and between sections are logically related to one another.

### Overall Case Score

- **Above Expectations (3):** Most sections were Above Expectations (3), and none were Below Expectations (1)
- **Meets Expectations (2):** All sections Met Expectations (2), and none were Below Expectations (1)
- **Below Expectations (1):** One or more sections were Below Expectations (1)

## 2. Consultation Case: Behavioral Problem

<tr>
<td><strong>CO</strong></td>
<td>A. Background and Context</td>
</tr>
<tr>
<td><strong>KS</strong></td>
<td>Description includes (a) type of school and community, (b) relevant system factors (e.g., family or school) that might affect the case, and (c) the behavior setting(s) where the problem occurs (e.g., number of people, stressors, types of activities, demands, relevant interpersonal or group process variables in classroom, etc.)</td>
</tr>
<tr>
<td><strong>CO</strong></td>
<td>B. Description of Student</td>
</tr>
<tr>
<td><strong>KS</strong></td>
<td>Description includes (a) student’s age, grade level, and educational placement, (b) reason for referral (s) in specific, behavioral terms, (c) student’s strengths, interests, and weaknesses, (d) relevant biological or developmental factors, and (e) relevant social, cultural or linguistic factors.</td>
</tr>
<tr>
<td><strong>CO</strong></td>
<td>C. Hypothesis Development</td>
</tr>
<tr>
<td><strong>KS</strong></td>
<td>Discussion includes (a) previous attempts resolve the problem, (b) the conditions under which the problem does and does not occur, (c) possible causal factors which are potentially controllable by either the student or consultee (e.g., antecedent, consequence, setting event), and (d) hypothesis about possible function of the problem. Description indicates that the internship student carefully considered the extent to which the problem reflects a skill and/or motivational deficit.</td>
</tr>
<tr>
<td><strong>CO</strong></td>
<td>D. Data Collection</td>
</tr>
<tr>
<td><strong>KS</strong></td>
<td>Data collection methods are appropriate given the nature of the referral problem and hypothesis, and given the developmental level, strengths and needs of the student. The assessment process takes into account the influence of biological, cultural, family and other social factors on behavior and social skills. The data collection section must include a graphic display of baseline and intervention phase data and a detailed description and rationale for data collected. Includes all data collection forms. The description should include (a) direct and indirect data collection methods used to assess the problem and conditions functionally related to the problem, (b) dimensions (e.g., frequency) assessed, (c) who assessed what areas, (d) when assessments occurred, and (e) the extent to which the data collection plan was implemented as intended.</td>
</tr>
<tr>
<td><strong>CO</strong></td>
<td>E. Intervention Plan</td>
</tr>
</tbody>
</table>
| **KS**         | Discussion includes (a) any revisions made to operational definition as a result of data collection, (b) results of data collection and relevance for hypothesis, (c) intervention goals and objectives that were derived from the data, and (d) a clear description, documentation, and justification of the intervention program. The justification was based on the results of the data collection (i.e., assessment), the student’s strengths and interests, consideration of a possible keystone variable, and a review of the research on
relevant interventions. The documentation of data collection includes (a) a broad-based understanding of the problem and hypothesized function derived from the data collection, and (b) relevant ecological factors, such as relevant sociocultural aspects of the case and the classroom context, and (c) the individual characteristics of the student, including skill level. Description of case includes how school staff and parent(s) were involved with the plan plan’s development and were kept informed about the child’s progress. Describe how the student’s/parents’ cultural background was taken into consideration in planning the intervention. The intervention plan includes appropriate methods for assessing the implementation of the intervention (treatment fidelity).

The justification is based on the results of the data collection (i.e., assessment), the student’s strengths and interests, and a review of the research of counseling interventions. The internship student describes how the child and parent(s) were involved with setting the counseling goal/s and plan, and how the internship student communicated with them about the goal/s and plan and the child’s progress. The internship student provides a description of how the student’s/parents’ cultural background was taken into consideration in planning the counseling. If applicable, the</td>
</tr>
</tbody>
</table>
| CO | F. Evaluation of Counseling Outcome  
The evaluation part of the counseling report includes a detailed description of the extent to which the counseling strategies were implemented as planned. A summary of counseling outcomes is provided with respect to (a) goals, (b) the student’s and others’ (e.g., teachers, parents) reactions to counseling, and (c) related effects. Based on the available data, the intern determined to what extent any changes might be attributable to the counseling (i.e., impact of the counseling on the student). A summary is provided of the student’s and relevant others’ reactions to the overall counseling process. A discussion is provided of if, how and why the counseling plan will be modified as a result of the evaluation. In the Appendix of the report, there is a clearly labeled graph (using APA style) that compares pre-counseling and post-counseling data with respect to counseling goals. |
| KS | G. Description and Critique of Counseling Process Issues  
A description and critique of the counseling process issues in this case are provided, including a self-reflection on the extent to which the intern  
- co-established the counseling goal/s together with the counselee;  
- used a systematic and reflective approach to problem-solving;  
- established a therapeutic relationship;  
- identified and built on the counselee’s strengths;  
- was culturally sensitive;  
- was able to perceive similarities and differences in communication styles between the internship student and the child/adolescent, and adjusted the communication style accordingly;  
- was mindful about issues of transference and counter transference;  
- used the following fundamental microskills:  
  - ‘Door opener’  
  - Minimal encourager  
  - Paraphrasing  
  - Reflecting content  
  - Reflecting feeling  
  - Reflecting meaning  
  - Summarizing  
  - Noticing body language  

The Internship student provided brief examples of his/her strengths and weaknesses with respect to the above behaviors. If some of the above skills were not developmentally appropriate for the case, internship student identified which ones were not used and discussed why they were not used. |
| CO | H. Reference List of Articles Reviewed for the Counseling Plan  
At the end of the case report, a list of references provides empirical support for one or more of the counseling strategies. References should be relatively recent and relevant to the nature of the problem. |
| KS | I. Appendix on Information Technology: Internship student summarizes how he/she appropriately used information technologies in this case. For example, information |
technology could be used in analyzing the data (e.g., graphing of data), developing forms for data collection or intervention, researching what interventions have empirical support, or communicating with teachers or parents.

**CO**

J. Appendix on Ethical and Legal Issues: A description is provided of how the student abided by relevant NASP ethical standards and laws in designing and implementing the counseling. Examples are provided and specific standards and laws are cited. A description is provided of what names or other possible identifying information were changed or omitted from the report to protect the anonymity of individuals.

**KS**

Use succinct and clear language that is devoid of jargon, pejorative or judgmental language, grammatical problems, colloquial expressions, typographical and spelling errors. Sentences and ideas within and between sections are logically related to one another.

**Overall QW**

**Much Above Expectations (3):** Most sections exceeded expectations (3), and none were below expectations (1)

**Meets Expectations (2):** All sections met expectations (2), and none were below expectations (1)

**Below Expectations (1):** One or more sections were below expectations (1)

### 4. Prevention Case Study

*This report can be in the traditional written case study format or an oral presentation combined with PowerPoint slides. If an oral presentation is used in conjunction with PowerPoint slides, it is the internship student’s responsibility to ensure that all required components are presented in a manner that clearly communicates or documents that the student’s work meets the criteria (i.e., CO, KS, QW) for the prevention case study.*

Both a prevention program for students and a professional development program for staff (e.g., inservice presentation) can be conceptualized as systems level prevention that can promote learning and positive development among children, and prevent behavioral or academic problems. Internship students should provide a report about their involvement in the implementation of a prevention program, a program that promotes school-wide learning or a professional development program in their school or school system. The program could consist of any program delivered by the internship student, school personnel or community partners. Examples or prevention programs include: bullying prevention programs, training parents in behavior management, health promotion programs such as the promotion of good eating habits or programs designed to increase physical activity. Examples of activities that promote school-wide learning could be a program that aims to improve reading skills of all students through a three-tiered RtI (response-to-intervention) and school-wide activities promoting multicultural awareness and or multicultural education.

Program Training Goals Addressed:
- Assessment
- Culture and Diversity
- Ethical and Legal Issues
- Communication and Information Technology

Check List

<table>
<thead>
<tr>
<th>Yes/No</th>
<th>Required Components for Each Section</th>
</tr>
</thead>
<tbody>
<tr>
<td>CO</td>
<td>A. Background and Context</td>
</tr>
<tr>
<td>KS</td>
<td>This section should include all relevant data: cultural (race, gender, age, class, identity) background, family, birth and developmental issues when relevant, education, academic performance, onset of difficulty, and prior intervention.</td>
</tr>
<tr>
<td>CO</td>
<td>B. Biological information; Hearing, vision, any health issues, physical disabilities, medications, family health history, when relevant.</td>
</tr>
<tr>
<td>KS</td>
<td>C. Reason for Referral and Choice of Assessment Measures: The reason(s) for referral should be clearly stated. The purpose of the assessment should be phrased in terms of questions that can be answered. The assessment measures should be tailored to the referral question and to the client. Where there are constraints on the choice of instruments, justify your selection and explain the potential impacts on the quality of assessment in an Appendix. The latest versions of the instruments should be used. A comprehensive evaluation means that three or more of the following domains of functioning are assessed: (a) academic skills and performance, (b) behavior, (c) cognition, (d) social and emotional functioning, and (e) life skills. Data are derived from multiple assessment methods (interviews, tests, rating scales, direct observation, record review). All evaluations should include interviews with the child, parents, and teachers.</td>
</tr>
<tr>
<td>CO</td>
<td>D. Linking Data to Inferences: Inferences must be based on valid representations of assessment data. Only make those inferences for which the assessment or test is valid.</td>
</tr>
<tr>
<td>KS</td>
<td>The link between the data collected, inferences, conclusions, and recommendations should be clear. The content of the assessment report should answer the referral question(s), provide a clear understanding of the strengths, deficits, interests, and general functioning of the client, and distinguish between aspects of the individual that appear to be certain from those that are questionable. The report should also provide alternative explanations for the findings, where relevant. Rather than provide all the data in detail, summarize what the data indicate with respect to the referral problem / initial hypothesis. The conceptualization should reflect an ecological perspective. In particular, the report should explicitly consider contextual factors that affect the individual, including cultural and linguistic factors. Explain the connection between the referral problem and contextual factors.</td>
</tr>
<tr>
<td>CO</td>
<td>E. Summary and Recommendations: Summarize the important findings and provide recommendations. Recommendations should be linked to assessment data, background information, and contextual factors, such as cultural and linguistic factors.</td>
</tr>
<tr>
<td>KS</td>
<td>Recommendations should take into consideration empirically-supported strategies. Recommendations should be both practical and specific. Recommendations should build upon the student’s strengths and/or interests, as well as his/her difficulties and also the opportunities and constraints in the student’s environment. In collaboration with others, the assessment is used to develop goals for the student.</td>
</tr>
<tr>
<td>CO</td>
<td>F. Appendix on Information Technology: Summarize what information technologies you used during the assessment (e.g., computer scoring program), analyzing the data (e.g., graphing of data), or writing the report (e.g., using digital databases to find research articles).</td>
</tr>
<tr>
<td>KS</td>
<td>G. Appendix on Ethical and Legal Issues: Indicate how you abided by relevant NASP and APA ethical standards in conducting the assessment and reporting the results. Cite the specific standards. For example, taking adequate steps to protect anonymity: omit names of people, birthdates, towns, school systems, etc. Indicate how you abided by relevant state and national laws or regulations. Cite the specific laws or regulations.</td>
</tr>
<tr>
<td>CO</td>
<td>H. Appendix on Addressing IDEA Exclusionary Clauses</td>
</tr>
<tr>
<td>KS</td>
<td>Use the attached checklist to review how well you addressed IDEA Exclusionary Clauses.</td>
</tr>
<tr>
<td>QW</td>
<td>I. Language: Use succinct and clear language that is devoid of jargon, pejorative or judgmental language, grammatical problems, colloquial expressions (e.g., mom), typographical and spelling errors. Sentences and ideas within and between sections are logically related to one another. Write in specifics rather than in overly broad generalizations. If a diagnostic category is used (e.g., attention deficit disorder), describe specifically what behaviors are relevant for this case.</td>
</tr>
</tbody>
</table>
Checklist for Addressing IDEA’s Exclusionary Clause for Specific Learning Disability (SLD) Identification*

Psychoeducational assessment reports demonstrate consideration of cultural and linguistic issues in every section of the report. For example, in the background section, the child’s English language proficiency, language spoken at home, ethnicity, and other relevant information about cultural and ecological context should be included. When assessing a linguistically diverse child, language dominance and proficiency of English should be assessed before determining who (bilingual or monolingual school psychologist) should evaluate the child and what methods and tools should be used. In the section describing the assessment methods and tools used, the rationale for selecting the listed methods and instruments should be reported (briefly) along with the cultural validity of the instruments for the child and the referral question. Cultural and linguistic consideration should be evident in test administration and interpretation, case conceptualization, and intervention goals and strategies.

In determining SLD eligibility, the multidisciplinary team must rule out that the primary cause of the deficit is caused by (a) a visual, hearing, or motor disability, (b) mental retardation, (c) emotional disturbance, (d) cultural factors, (e) environmental or economic disadvantages, or (f) limited English proficiency.

**How to establish these evidences for CLD students**

The information is collected from multiple sources, including a careful review of the school record, and interviews with the child, parents/care-takers and teachers.

Gauging English and native language proficiency and acculturation level especially before testing with nationally standardized norm-referenced instruments

**Addressing the IDEA exclusionary clause of inappropriate instruction**

Teacher perceptions of lack of academic progress: examine comparison standards:
- Is the ELL student compared to native English speakers?
- To what extent does the student understand teacher instruction?
- Does the instruction address the student’s needs?

**Addressing the IDEA exclusionary clause of emotional disturbance**

review the information from the referral source, school records, and interviews with the child, parents/care-takers and teachers

-If no concern about socio-emotional functioning from any source, no formal assessment in this area will be warranted.

-If there are concerns: Take into account the stressors from differential expectations between home and school. Conduct an assessment based on the IDEA criteria for emotional disturbance

School Psychology Clinical Supervision*

(Adapted from Swerdlik, M.E., & Simon, D.J. (2015) SCHOOL PSYCHOLOGY INTERNSHIP SUPERVISION CONTRACT)

Your clinical supervisor is an experienced professional with advanced training who is an over-seer of your school psychology internship activities and who is responsible, with you, for the quality of all of your clinical work and internship activities. Clinical supervision focuses on the services you provide to all clients including students, parents, and educators. Supervision responsibilities cover all aspects of client welfare as impacted by assessment, intervention, training, diagnostic, consultation, problem-solving, program development, and community referral activities. Supervision involves a broad array of training activities that include monitoring, consultation, training, direct instruction, and performance evaluation.

I. Purpose, Goals, and Objectives of Clinical Supervision
   a. To monitor and ensure welfare of clients seen by supervisee
   b. To structure the activities of the supervisee to insure they provide competent services
   c. To insure that the unlicensed provider functions within their level of competence
   d. To facilitate the intern’s personal and professional development.
   e. To promote accountability
   f. To fulfill academic requirement for supervisee’s internship

II. Context of Services
   a. Supervision will revolve around clients seen at the primary school site, associated elementary or secondary school experience rotation sites, and all community venues linking with student services.
   b. A minimum of two hours of individual supervision will be provided weekly; the supervisor will also be available on an as-needed basis.
   c. Individual supervision will be conducted in the supervisor’s office on a mutually determined day/time.

III. Duties and Responsibilities of Supervisor and Supervisee

Your clinical supervisor is legally and ethically responsible, with you, for the services you provide and the manner in which you conduct yourself. It is therefore your responsibility to keep your supervisor well informed as to your activities. Openness with and trust in your supervisor will enhance your experience of supervision and your professional growth. A supervisor has full responsibility for the supervised work of the supervisee, including assessment, diagnosis, intervention, consultation, problem-solving, professional development, and community referral activities. It is particularly important that any intern activity that uncovers potential risk for harm to a client be immediately reported to the supervisor for consultation.

It is the supervisor’s role to do the following:

---

1 Swedlik and Simon include a statement that supervisors will adhere to the DEP model of supervision. See note at end of intern’s responsibilities.
a. Provide a location and atmosphere for supervision that is safe enough for supervisees to lay out practice issues in their own way.

b. Conduct Formative and Summative Evaluation/Assessment of Intern Progress. To enhance intern growth and legitimize accuracy of intern progress evaluation, the supervisor will engage in direct observation of intern activities, review recordings of work, provide consultation and training in response to trainee questions and activity reviews, model and demonstrate appropriate school psychology skills, and review all reports, IEPs, and recordkeeping. The supervisor will also provide written and/or oral feedback on all aspects of your school psychology work highlighting strengths and making specific recommendations for professional growth. Formal written summative reviews will minimally occur on a quarterly basis. Throughout this process, the intern will be guided in developing self-monitoring skills. If the supervisee desires additional feedback at any time, it is his/her responsibility to request it from the supervisor.

c. Help the supervisee explore and clarify thoughts and feelings which underlie psychological practice.

d. Assist supervisee in anchoring assessment planning, diagnosis, interventions, consultation, and problem-solving in a theoretical approach.

e. Identify supervisee’s personal and/or professional blind spots.

f. Bring to the supervisee’s attention those personal difficulties of the supervisee that directly affect the supervisee’s clinical work and recommend a course of action to address these difficulties.

g. Present and model appropriate directives.

h. Intervene if client welfare is at risk.

i. Ensure that ethical guidelines of both the American Psychological Association (APA, 2002) and the National Association of School Psychologists (NASP, 2010) are upheld.

j. Conduct activities in accordance with the School District and University policies.

k. Sign off on all client documentation including psychological reports.

l. Maintain weekly “Supervision Notes”.

The supervisor will discuss any concerns regarding the supervisee’s performance in a timely fashion and will develop, in collaboration with the intern, a remediation plan if deficits/problems are identified.

It is the intern’s role as supervisee to do the following:

a. Be punctual, both at sessions with clients as well as at supervision. In the event that you are delayed for or unable to attend a supervision session, it is your responsibility to notify your supervisor and make alternate arrangements. If the individual appointment cannot be kept due to scheduling conflicts, an effort will be made to reschedule an alternate date/time; and a supervision session will only be cancelled upon the mutual agreement of the both the supervisee and supervisor.

b. Be prepared, both for sessions with clients as well as for supervision. You are expected to have client notes, protocols, and recordings ready to review, to have “scored” all formal psychological instruments administered, and have prepared an agenda of issues that you need to have addressed, together with the files of the clients involved. As part of this advanced preparation, the supervisee will have completed an “Intern’s Supervision Session Planner” and shared this document with your supervisor prior to each supervisory session.

c. Provide summaries of all student, parent, educator, and other client contacts, interviews, and intervention activities for the supervisor. If a recording is required, it will be reviewed/critiqued by the intern and brought to the next supervisory session (keyed to a section that supervisee would like to review with the supervisor). The Supervisee is responsible for planning and documenting work with clients as required by the school district. The Intern’s
**Client/Activity Session Planner** and the **Intern’s Client/Summary Progress Notes** can be helpful tools to share with supervisors.

d. If the supervisee believes that client issues/concerns have not been adequately addressed during the regularly scheduled supervisory session, the supervisee will bring this to the attention of the supervisor and another session will be scheduled.

e. Share with the supervisor your learning goals for the training experience. This will require self-reflection and self-evaluation regarding your current level of clinical skill.

f. Be receptive to guidance and instruction from your supervisor, that is, be attentive to feedback and suggestions from your supervisor and follow through on such instruction promptly. It may be necessary to take notes during supervision in order to execute all instructions identified by your supervisor.

g. Inform your supervisor of any difficulties you are having in the areas of delivering services to clients, completing paperwork, or coordinating with other agencies or providers such as schools or independent practitioners.

h. As you establish a working relationship with your supervisor, it is hoped that you will become increasingly able to share issues and concerns you may have that impact your clinical work. Be open to feedback from others and monitor any tendency you may have toward defensiveness.

i. In consultation with your supervisor and after review of evidence-based literature, select a framework for integrating theory, research, and practice; formulate client case conceptualizations from this approach; and be ready to discuss the theoretical reasons and empirical supports for your assessment approaches, interventions, consultation, and problem-solving techniques.

j. The supervisee cannot engage in dual relationships with clients; that is, interns will not socialize with clients or their families, nor will they provide services to individuals they know from other contexts, such as friends or acquaintances. It is the intern’s responsibility to alert the supervisor of any instances where the intern has prior knowledge of a client or his/her family from beyond the school setting. Appropriate measures to protect confidentiality will be employed in these circumstances.

k. The intern is responsible for insuring that the parents/guardians of all clients are informed of the supervised nature of your work as a supervisee, and of the ultimate professional responsibility of the supervisor.

l. You are responsible for insuring that all evaluative letters and reports concerning clients are co-signed by your clinical supervisor **before** they are sent out to parents, educators, or other approved third parties, i.e., private practitioners, governmental agencies, etc. When required, it is also your responsibility to determine that an active *Authorization for Release of Confidential Information* form is present in the client’s file before presenting the letter/report to the supervisor for signature.

m. Assessment and intervention plans must be reviewed prior to implementation with the supervisor to determine appropriateness and monitored for effectiveness and potential revision on an ongoing basis. Supervisees must advise their clinical supervisor of all important changes related to a case, i.e., significant family events, disciplinary actions, legal issues, medical concerns, etc.

n. The intern must keep the supervisor informed about clients who are suicidal, homicidal, threatening to harm others, or engaged in any self-harm activities such as “cutting”, substance abuse, eating disorders, or other dangerous risk taking behaviors. Any disclosure by a student or collateral informant of potential child abuse must be reported to the supervisor **immediately**. Notify your supervisor about clients who are involved in child custody disputes, Disability Determination assessments, or any other matter that affects the client’s legal status. Notify your supervisor **immediately** if you receive any summons to testify or you are told that you will be subpoenaed to testify. Do **not** under any circumstances release client information to an
attorney or court or anyone else without a proper Authorization for Release of Confidential Information form signed by the client, legal guardian, and the supervisor as prescribed by regulation. In all circumstances, legal and ethical guidelines for the protection of client confidentiality must be followed. Do not communicate confidential information or identify clients in email communications other than in drafts of reports and intervention plans that are specifically noted to be drafts.

o. Seek supervision whenever you are uncertain about a situation. Make every attempt to reach your clinical supervisor before taking action with that client. If your supervisor cannot be reached, contact another staff school psychologist. You may also consult informally with more experienced clinicians on staff, but your clinical supervisor must be kept abreast of any and all emergencies.

In the event of emergency, the supervisee is to contact ________ at his/her office at ________, at home at ________, or by cell at ________. If unable to reach your supervisor, contact another psychology staff member. Follow the guidelines and procedures in the District and School Manuals for emergency situations.

p. Implement supervisory directives in subsequent psychological activities.

q. Uphold ethical APA and NASP principles in all client-related activities.

r. Be familiar with and follow the policies and procedures delineated in the District, School, and University manuals and documents. The supervisee agrees to complete all required reports and recordkeeping in a timely fashion for all cases and within guidelines specified in school and special education regulations. Drafts of psychological assessment reports and IEP paperwork should be submitted to the supervisor for review with enough time for review and editing prior to meetings.

s. Complete all professional tasks within time frames that address legitimate client needs and meet the requirements of all team participations.

Note on DEP Model:
The supervisor works within the framework of the Developmental/Ecological/Problem-solving (DEP) Model of supervision. The Developmental focus tailors supervision activity to the intern’s experience and skill level at each stage of training. This approach is committed to supporting the trainee’s growth from intensely monitored and supported practice to relatively independent functioning characteristic of an entry level professional. The Ecological focus accounts for contextual and systemic factors impacting the professional development of the intern. It recognizes that multiple systemic contexts must be considered when supporting students and faculty. Training will develop competency in understanding and supporting the full range of student diversity including multi-cultural factors. A variety of supervisor and supervisee tasks (e.g., skills in assessment and intervention planning, professional role and function, self-evaluation) and functions (e.g., monitoring, advising, consulting, and evaluation) are addressed within a developmental framework which is impacted by client, supervisee, supervisor and systemic/organizational contextual factors. The Problem-solving focus applies systematic analysis and data-based decision making skills to all aspects of psychological intervention. It sets the foundation for choosing and implementing evidence-based practices for promotion of healthy psychological development and problem prevention, assessment, early intervention, crisis intervention, and therapeutic strategies. If the supervisee wishes, the supervisor is pleased to discuss any aspect of this supervision model with her/him.

This evaluation form is based on Best Practices Guidelines for School Psychology Intern Supervision and Mentoring, developed by the NASP Graduate Education Committee.

### Name of Supervisor: __________________________ Date: ______________

### Name of Intern: __________________________ Program: __________________________

### Dates of Supervision: __________________________ Intern Signature: __________________________

Please evaluate the school psychology intern field supervisor by selecting one rating for each item.

E*Value

E*Value is an online clinical management tool used for all practicum and internship experiences to manage site details and application processes, initiate contract requests with sites, track student clinical hours and gather evaluations of student and site/supervisor performance. See www.evaluehealthcare.com for a detailed description of the clinical solutions program provided by E*Value. Your E*Value user name and password will be sent to you via email from the E*Value system during the Fall before you begin in your practicum. Follow the link in the email to enter into your account. This login will be utilized for the duration of your program of study.

E*Value organizes evaluations by student, site supervisor, university based seminar supervisor, and program director/director of clinical training. The system sends emails to you and your fieldwork site supervisors, which contain links to various forms that are expected to be completed. The links are typically sent 3 weeks before the end of the semester. Please note that these emails may end up in your or your supervisor’s junk/spam mail folder if E*Value is not a contact in the receiver’s email system. If you are missing an expected evaluation email/link please check your junk/spam folder.

Searching E*Value for Sites

-Go to www.evaluehealthcare.com and click on the Login button in the top right corner.
-Enter the login name and password you received via email, and then click Login.
-On the Program Selection screen, choose the overall NEU, Counseling & Applied Educational Psychology (NOT) your degree program (e.g., MS or PhD programs)
-Continue Login
-Follow the menu path: Click on the teal-colored “Sites and Affiliations” tab, then click on “Site Reports” then “Custom Fields” (See Below).

In the “Standards Fields” tab, move over “Site Specialty” and “Site Groups” over into Selected Fields (See Below).
You can select HTML* or MS Excel** for the format (depending on how you want to view it)
*HTML should be your preferred way.
**Remember, if you use the Excel format, any changes that administrators may make in the
database will not be reflected in your saved document.

-Click “Next”
-You can sort by either “Specialty” or “Site Groups” (but sorting Site Groups first would be
best in order to see which specific sites are available to your program of study) (See below)
-But, if you’re looking for a, for example, School-based vs. Hospital site, then sorting
by “Specialty” first would make more sense.
-Searching by “City” or using the Ctl ‘f’ feature for searching for keywords (e.g.,
“Quincy”) are also useful options
-Click on the site name in order to obtain the details about the site.

Schedule Requests in E*Value

Go to www.evaluehealthcare.com and click on the Login button in the top right corner. Enter
the login name and password you received via email, and then click Login. On the Program Selection
screen, choose your degree program (NOT NEU, Counseling & Applied Educational Psychology).
Continue Login. Follow the menu path: Schedules > Manage Requests (See below).
Select the Rotation (this is your course name), Time Frame (Semester), Site, and Site Supervisor you would like to request (not the University Supervisor).

- Click on the magnifying glass to the right of the “Site” drop-down to confirm the details of your site including name of site, address, contact information, supervisor and supervisor contact information.
- If any of this information is incorrect please contact c.dixon@neu.edu and j.george@neu.edu as soon as possible.
- If you do NOT recognize your site in the existing dropdown, please check other potential names/spellings for the site (ex; Shattuck = Lemuel Shattuck Hospital)
- If the Site and/or Supervisor you would like to request do not appear in the drop-down lists, please email c.dixon@neu.edu and j.george@neu.edu the following information about your site:
  - Site name, address and phone #
  - Supervisor’s name, credentials, phone # and email address
- Optional – Request Documents: Upload a document(s) associated with your schedule request
- Optional – Comments: Enter any additional information related to your schedule request
- Click Submit
- You will see the details of your request appear in a table at the bottom of the page.
- Program administrators will review your schedule request and approve it, edit it or deny it.
- You will receive an email notifying you when your request has been approved/denied. Also, the “Status” of your schedule request will update on the Manage Schedule page (Schedules > Manage Requests).
- After you have completed the above steps a contract request will be generated for your clinical training experience. The Department/Northeastern University and your site will take care of the details of the contract process.

Once training sites are chosen, students should schedule their sites within the E*Value system as soon as possible to start the contract process. The process of signing a contract can take 4-6 weeks.
Once the contract is approved, students can enter the system to record. The first year students who are not in the E*Value system yet, will receive directions on how to enter the E*Value system.

**Logging Hours in E*Value**
- Go to [www.evaluehealthcare.com](http://www.evaluehealthcare.com) and click on the *Login* button. Enter the login name and password you received, and then click *Login*.
- On the Program Selection screen, select your degree program (i.e., “NEU, MS School Psychology”).

**Program Selection**

You are associated with more than one program within E*Value. Please select the program you wish to work with at this time:

- NEU, Counseling & Applied Educational Psychology
- NEU, MS School Psychology

Follow the menu path: Time Tracking > Log Hours
Hours Logging Overview PDF

Select the task – the type of hours being logged

The Rotation and Site drop down lists will default to your current scheduled rotation. If you need to Choose a different rotation or site for this time log, uncheck the box(es) and the drop down will show all Rotations and Sites.

Choose your Site Supervisor. This person will be asked to verify the time logged.

(Optional) Enter a comment about the time logged.

Select the Start and End time for your hours
(Please note that students track hours in fifteen minute increments by using a clock system. The time in and time out are irrelevant but rather the total time engaged in a task. For example, if you spend 1 hour in a group therapy session with students and this runs from 11:00 AM to 12:00 PM, it does not matter the time in and time out (although the system requires this) but rather that you enter 1 hour of this activity on this day).

In the small calendar on the right, click on the date on which these hours where completed. Days highlighted in blue already have time logged.

The large calendar at the bottom of the page displays all hours logged for the current month. You can see the hours logged for each day, the total hours for the week, and the total hours for the month.
Time Tracking Hours – Totals per Task

- Go to: Time Tracking > Reports > Statistics
NU’s School Psychology Internship

- Select the following filter criteria:
  - Start Date/End Date: Select the date range to get totals for the term or year
  - Report Type: Select “By Task” to get hour totals for each category
  - Format Option: Choose “HTML” to view the report in E*Value; Choose “MS Excel” or “PDF” to download the report.

**Hours Statistics Report**

- Once you run the report, you will see separate tables for the hours on each task. The only important column is “Total Hrs”; you can disregard all the others.

**Directions for Uploading Immune and Certs (Praxis Scores) in E*Value**

- Go to www.evaluatehealthcare.com and click on the Login button in the top right corner.
- Enter the login name and password you received via email, and then click Login.
- Go into the overall program “NEU, Counseling & Applied Educational Psychology” NOT the “NEU, MS School Psychology” or the “NEU, PhD School Psychology” specific programs.
- Click on My Profile (purple button at top) > Immuns and Certs > Manage: Immuns and Certs. (See below)

- Under “Other” (NOT “Certifications”) enter each one of your Praxis subtest scores

- First, enter an “Event Date” for each of your subtests and your total score by using the date you took the exam.
- Then, enter each of your subtest scores and your total score in the “Notes” field.
- Finally, upload a pdf of your complete score report at “add attachment” paper clip button under the “Praxis: Total Score” (See below).
If you took the new Praxis exam (Sept 2014--after), fill in these subtest scores:

NEW PRAXIS SUBTESTS:
I. Professional practices, practices that permeate all aspects of service
II. Direct and indirect services for children, families, and schools
III. Systems-level services
IV. Foundations of school psychological service deliveries
V. Total

If you took the old Praxis (before Sept. 2014) fill in:
OLD PRAXIS:
All others…
