Welcome to GSK

Dear Prospective Fellows,

As a candidate, we understand that you have many options for fellowships, and we thank you for your interest in the GSK/Northeastern University Pharmaceutical Industry Fellowship Program.

At GSK, we unite science, technology and talent to get ahead of disease together. We are making strides in infectious disease, HIV, respiratory/immunology, and oncology with the aim to positively impact the health of 2.5 billion people by the end of the decade. At GSK, our culture powers our purpose, drives delivery of our strategy and helps make GSK a place where people can thrive. Our culture of being ambitious for patients, accountable for impact and doing the right thing is the foundation for how, together, we'll deliver for patients and all our stakeholders.

GSK recruits and develops outstanding people: people who believe in our purpose, live our culture and want to help us achieve our ambition. Through our fellowship program, we abide by this and offer each fellow a unique and impactful experience to launch a successful career in the pharmaceutical industry.

In partnership with Northeastern University, we offer a two-year fellowship focusing in Global Medical Information. Fellows have the opportunity to personalize their fellowship journey and explore the various facets of Medical Information all while helping us to get ahead of disease together. Furthermore, we believe in the power of mentorship and have a world-class organization supportive of your development. GSK is a company where people including our fellows can grow, be their best, be safe, and feel welcome, valued and included.

Thank you again for your consideration of our program and I wish you success in your career journey.

Sincerely,

Noelle Wilson, PharmD

Who we are

We are a global biopharma company with a purpose to unite science, technology and talent to get ahead of disease together. We aim to positively impact the health of 2.5 billion people by the end of the decade, as a successful, growing company where people can thrive.

Ahead Together

Our Strategy

We are a focused biopharma company. We prevent and treat disease with vaccines, specialty and general medicines. We focus on the science of the immune system and advanced technologies, investing in four core therapeutic areas: infectious diseases, HIV, respiratory/immunology, and oncology. Our Ahead Together strategy means intervening early to prevent and change the course of disease, helping to protect people and support healthcare systems.

Our Culture

Culture at GSK is something we all own. It powers our purpose, drives delivery of our strategy and helps make GSK a place where people can thrive. Our culture of being ambitious for patients, accountable for impact and doing the right thing is the foundation for how, together, we'll deliver for patients, shareholders and GSK people. Our Code sets out the commitments GSK and our people make to get ahead together – so we can deliver on our ambition in the right way, bring our culture to life and make GSK an exciting and inspiring place to work.

Our Global Footprint

- Our pharmaceutical R&D facility in Upper Providence (Pennsylvania) is one of two major pharmaceutical R&D hubs for GSK globally, complementing our R&D Center in Stevenage, UK.
- Global corporate offices located in London; Philadelphia, PA; Durham, NC; and Singapore
- In addition to Upper Providence, Pennsylvania and Rockville, Maryland, we have other research centers across the US in Branford, CT (ViiV Healthcare), Waltham, MA, Cambridge, MA, Richardson, TX, and San Diego, CA.

Fellows can be based at GSK offices in Waltham, MA, Collegeville, PA or Philadelphia, PA

Waltham, Massachusetts

The Waltham location, previously known as Tesaro, was acquired by GSK in 2019 to strengthen the oncology pipeline and has become a pivotal R&D location. It is located approximately 15 miles northwest of downtown Boston.

Collegeville (Upper Providence), Pennsylvania

The Upper Providence GSK site, which is the US R&D Hub, is named for its location in Upper Providence Township, Montgomery County, Pennsylvania. It is approximately 30 miles northwest of Center City Philadelphia and approximately 35 miles from Philadelphia International Airport.

Philadelphia (FMC Tower), Pennsylvania

Directly located in FMC Tower in Philadelphia at Cira Centre South, this office location is a signature gateway to Philly's University City directly located on Walnut St. Panoramic views of the Schuylkill River, Center City and Penn Park can be seen from the 49-story tower.

Oncology

Our emerging oncology portfolio is focused on seeking solutions for blood and gynaecologic cancers and making breakthroughs in immuno-oncology and tumour-cell targeting therapies.

Respiratory/Immunology

We are pushing the frontiers of respiratory science and harnessing the science of the immune system to transform patient outcomes in areas of unmet need, based on decades of innovative research.

Infectious Disease

For over 70 years we have been at the forefront of research into diseases caused by bacteria, viruses, and parasites. Our infectious diseases portfolio is one of the broadest in the industry, and includes vaccines, antibiotics, antivirals and anti-fungals.

HIV

We are world leaders in next-generation HIV treatment and prevention, through ViiV Healthcare which we majority own. We have an industry-leading pipeline, driven by patient insights.

R&D and the Oncology Pipeline

Even with significant progress in cancer prevention and treatment, there remains a huge need for innovation to improve quality of life and long-term survival for patients. Our focus on precision medicine-based technology is helping us to pinpoint cancer's genetic signature and find new treatment combinations to match the right medicine to the right patient. We are working to realise the full potential of our existing medicines, as well as to expand our portfolio in areas of high unmet need.

We have accelerated research areas including tumour-cell targeting therapies and next generation immuno-oncology agents, drawing on our internal capabilities, our expertise in human genetics and the science of the immune system, as well as that of our partners.

Areas of focus:

Hematologic
Oncology

Gynecologic
Oncology

Solid
Tumors

We have multiple investigational medicines in our oncology pipeline that have the potential to make a meaningful difference for patients with cancer, and we continue to grow our pipeline through targeted business development.

Through research in therapies for:

Multiple Myeloma

Myelofibrosis

Ovarian Cancer

Endometrial Cancer

Colon Cancer

Lung Cancer

Rectal Cancer

Additional Solid Tumors

Glioblastoma

Head and Neck Squamous Cell Carcinoma

Our Current Fellows

Christine Akiki, PharmD
2nd Year Fellow
Global Medical Information Fellow
University at Buffalo

“I chose to be a part of the Northeastern/GSK Global Medical Information Fellowship program because of its robust dedication to the growth and development of PharmD fellows. During my time as a Medical Information fellow, I was immersed in various projects, including playing an instrumental role in the update of the AMCP dossier for our product launch. Through the guidance and support of the team, I contributed to various key MI deliverables, including database and content creation, digital initiatives, and US and international congress support. In addition to my fellowship commitments at GSK, I also had the opportunity to precept pharmacy APPE students and facilitate teaching at Northeastern University.”

Allison Dinh, PharmD
2nd Year Fellow
Global Competitive Intelligence/Medical Information Fellow
The University of Texas at Austin

“The people and the structure of the program were the two key factors that really drew me to GSK. During my interviews, I felt supported, at ease with the team, and knew it was a place where I could grow with their mentorship and expertise. Now as a fellow, I have been able to have a rich variety of experiences within different medical affairs functions and even in commercial with my work in competitive intelligence. I am lucky to be surrounded by the most knowledgeable and kindest preceptors.”

Global Medical Information Center of Excellence Fellowship

Program Overview

The Global Medical Information Fellow will be immersed in Global Medical Information Center of Excellence activities across multiple oncology assets. While this fellowship focuses on learning the fundamentals of Medical Information within oncology, the fellow will have opportunities to rotate across other therapeutic areas in Medical Information based on interest and availability.

Example Fellow Responsibilities *(including, but not limited to)*

- Develop cross-functional relationships across the organization through implementation of the Global Medical Strategy; including collaboration with Legal, Medical Affairs, and Value Evidence and Outcomes (VEO) teams for content creation
- Evaluate medical literature to develop standard and custom response letters, slide decks, and infographics for external healthcare providers.
- Provide medical review of scientific engagement material (non-promotional) and commercial (promotional) material
- Develop pre- and post-authorization payer dossiers and submissions to compendia and pathway organizations
- Attend major medical congresses, sessions, and medical education symposia and provide summary and insight reports; engage with healthcare providers at medical booths
- Assist with the availability and accessibility of medical congress materials, including key scientific posters and presentations
- Collaborate with internal stakeholders on key digital initiatives

Fellowship Structure

Focus Areas in Global Oncology Medical Information

- | | |
|---|--|
| - Content Creation | - Digital Initiatives |
| - Medical Information Database Management | - Support of Congresses and Staffing Medical Information Booth |
| - Promotional Review | - Handle Call Center Escalations |
| - Product Launch Planning and Execution | - Precept APPE Students from Northeastern University, School of Pharmacy |
| - Development of AMCP Dossier and Payer Focused Materials | |
| - Compendia/Guideline Submissions | |

Elective Rotations

- The fellow will have opportunities to rotate across other therapeutic areas in Medical Information based on interest and availability.

Global Medical Information Preceptors

Noelle Wilson, PharmD

Fellowship Program Director and Director, Global Medical Information, Oncology

Noelle founded the fellowship program in 2018 and has served as Fellowship Director and Preceptor since its inception. Over the last 15 years, Noelle has worked at various pharmaceutical and biotech companies across different therapeutics areas always focusing in medical information. Noelle started at Tesaro in 2017 which was then acquired by GSK in 2019 where she has remained since. Noelle received her PharmD from Northeastern University, School of Pharmacy and is based out of the Waltham, MA office.

Amanda Cline, PharmD

Manager, Global Medical Information, Oncology

Amanda is a former post-doctoral fellow, having completed her fellowship with Rutgers University in partnership with AstraZeneca plc in 2022. After completing her medical information/strategy fellowship, Amanda transitioned to the role of Medical Information Manager at GSK, and has since served in this role across the oncology portfolio. Amanda has extensive experience tutoring, mentoring, and engaging with pharmacy students to support their career aspirations in the pharmaceutical industry. She is passionate about teaching future generations of pharmacists, and has recently precepted both fourth-year pharmacy students as well as a post-doctoral fellow for one of their 4-month rotations. Amanda received her PharmD from Jefferson College of Pharmacy and she is based out of the Upper Providence, PA office.

Jonathan Sin, PharmD, MBA

Manager, Global Medical Information, Oncology

Jonathan Sin, PharmD, MBA serves as a preceptor for the Global Oncology Medical Information Fellowship. He obtained his PharmD from St. John's University, MBA from University of Massachusetts Amherst, and completed 2 years of post-graduate clinical pharmacy residency training. Prior to joining GSK, Jonathan held numerous roles in clinical pharmacy practice, medication safety, regulatory compliance, and PharmD residency leadership within the academic medical center setting. In his current role as Manager, Global Medical Information at GSK, he collaborates with matrix partners to support the hematology/oncology therapeutic area. Jonathan is committed to precepting and mentoring future pharmaceutical industry professionals, and the cross-functional learning environment within GSK provides optimal career development opportunities for current and future PharmD fellows.

Spotlight on Past GSK Fellows

Chiamaka Olewuenyi, PharmD

Fellowship Class 2022-2024

Global Oncology Scientific Communications Fellow

Current:
Senior Manager, Worldwide Medical Communications, Hematology at BMS

Dylan Toupin, PharmD

Fellowship Class 2020-2022

Global Medical Information Fellow

Current:
Medical Science Liaison at Takeda

Hooman Kashi, PharmD

Fellowship Class 2022-2024

Global Medical Information Fellow

Current:
Manager, Medical Information, Hematology at GSK

Frank Scillufo, PharmD

Fellowship Class 2020-2022

Global Regulatory Affairs Fellow

Current:
Senior Manager, Regulatory Affairs, U.S. Advertising and Promotion at AbbVie

Salar Sheykholtan, PharmD

Fellowship Class 2021-2023

Global Oncology Scientific Communications Fellow

Current:
Manager, Scientific Communications and Congress Strategy at argenx

Catherine Feng Bilitza, PharmD

Fellowship Class 2019-2021

Global Regulatory Affairs Fellow

Current:
Associate Director, Regulatory Affairs, Advertising Promotion & Policy at GSK

Nistha Shah, PharmD, FISMP

Fellowship Class 2021-2023

Global Medical Information Fellow

Current:
Associate Medical Director, Gynecologic Malignancies at GSK

David Olczuk, PharmD

Fellowship Class 2019-2021

Medical Affairs, Oncology Fellow

Current:
Director, Medical Communications at Karyopharm Therapeutics

Jennifer Lee, PharmD, MBA

Fellowship Class 2020-2022

Global Oncology Scientific Communications Fellow

Current:
Associate Director, Worldwide Medical Communications, Hematology at BMS

Kylie F. Josefiak, PharmD

Fellowship Class 2019-2021

Scientific Communications/ Medical Affairs Fellow

Current:
Associate Director, Scientific Education and Training at Exelixis

Alexandria Jarvais, PharmD

Fellowship Class 2020-2022

US Medical Affairs, Oncology Fellow

Current:
Medical Science Liaison, Rheumatology at Sobi

Kunal Sunthakar, PharmD, MBA

Fellowship Class 2018-2020

Medical Affairs Fellow

Current:
Associate Director, Commercial Development and Marketing at Bicycle Therapeutics

“

GSK Fellow 2022-2024

Chiamaka Olewuenyi, PharmD

Senior Manager, Worldwide Medical Communications, Hematology at BMS

“During my interview process for the Global Oncology Scientific Communications fellowship at GSK, the team made me feel welcomed and valued as a candidate, and this was the major reason I decided to pursue a fellowship with the GSK oncology team. During my fellowship, I had the opportunity to lead impactful and highly visible projects and workstreams, and continuously felt like a trusted and valued member of the team. The opportunity to curate personalized rotational experiences, while also continuing to support Scientific Communications, allowed me to both explore other facets of Global Medical Affairs and gain the necessary skills and experiences to be a well-rounded Scientific Communications professional.”

“

GSK Fellow 2022-2024

Hooman Kashi, PharmD

Manager, Medical Information, Hematology at GSK

“The Medical Information Center of Excellence fellowship at GSK allowed me to explore how our medical information team contributes to the patient care process. As part of my fellowship experience, I was involved with high-impact medical information projects to support our product launch and staffed the GSK medical information booths at three national oncology/hematology congresses. I am grateful for all the support and guidance I received!”

“

GSK Fellow 2021-2023

Salar Sheykholtan, PharmD

Scientific Communications and Congress Strategy Manager at argenx

“The Global Oncology Scientific Communications fellowship at GSK provided me with a well-rounded experience at a leading organization. The ability to rotate through various functional areas of Oncology Medical Affairs, while also continuing to support Scientific Communications, was one of the major reasons that drew me to this program. The first-class mentorship, guidance, and team chemistry/dynamics are what motivate me to strive for the best on a daily basis.”

“

GSK Fellow 2020-2022

Dylan Toupin, PharmD

Medical Science Liaison at Takeda

“My journey in the pharmaceutical industry has been profoundly impacted by my role as a Global Medical Information Fellow at GSK in conjunction with Northeastern University. The fellowship offered invaluable hands-on experience across various functions in Medical Affairs, all closely aligned with my specific interests. I was given the autonomy to lead key tactics and strategies, which enabled me to become a vital contributor within the Global Medical Information team. The program's strong emphasis on mentorship and collaboration with seasoned professionals significantly accelerated my professional development, expanding my skill set and deepening my understanding of Medical Affairs. These experiences have equipped me with a comprehensive skill set and a strategic mindset, fully preparing me for success in a fast-paced environment. I highly recommend this fellowship to anyone seeking diverse, enriching opportunities, as it fosters an environment of growth while supporting GSK's mission to improve the quality of human life by enabling people to do more, feel better, and live longer.”

Northeastern University Pharmaceutical Industry Fellowships

ABOUT OUR PROGRAM

OVERVIEW

Northeastern University Pharmaceutical Industry Fellowships Program is a two-year experiential program designed to advance lifelong learning and the education and training of PharmD graduates. Critical to the success of the program is our ability to prepare fellows to meet the ongoing workforce needs in various areas of industry.

Our program provides fellows an opportunity to work with our innovative biopharmaceutical industry partners while collaborating with Northeastern University faculty in the areas of professional and career development, service, scholarship, and teaching.

OUR MISSION

Our mission is to provide the highest quality training for future biopharmaceutical industry professionals by combining industry expertise with Northeastern University's renowned tradition of lifelong and experiential learning.

CORE VALUES

- ☑ Innovation
- ☑ Lifelong Learning
- ☑ Social Impact Through Drug Development
- ☑ Quality Industry Pharmacy Training

FOCUS AREAS

LEARN

Pursue graduate degrees or certificates in Regulatory Affairs, Business, Public Health, and more through tuition reimbursement.

TEACH

Teach pharmacy students in various small and large group classes. Earn a Teaching Certificate of achievement.

RESEARCH

Perform research with faculty and students. Present data at conferences. Publish your findings. Generate literature.

NETWORK

Boston has a lot to offer, both socially and professionally. Our program takes advantage of it all!

Thanks to the collaboration and dedication of our industry partners over the course of nearly 10 years, our program is now the 3rd largest industry fellowship program in the nation.

OUR PROGRAM PILLARS

TEACHING & SCHOLARSHIP

Teaching and Learning Seminar Series provides contextual activities and reflection on adult education and pedagogy outcomes.

PROFESSIONAL & CAREER TRAINING

Professional Development and Career Training Series is customized to engage fellows in appropriate and professional conduct for success.

SERVICE

Through their service on committees, fellows have an active connection within the community and program. This allows an opportunity to demonstrate leadership development and skills.

Northeastern University Pharmaceutical Industry Fellowships Program provides a dynamic academic environment offering fellows the opportunity for a wide breadth of experiences.

PROGRAM OPPORTUNITIES

Develop teaching skills through participation in our Teaching and Learning Seminar Series

Utilize a layered learning model in experiential education by co-precepting students on pharmacy practice experiences including Northeastern's unique co-op program

Facilitate small and large group didactic education in partnership with a faculty mentor

Create, present, and publish scholarly research through collaborative industry and university relationships

Engage with faculty who participate in various interdisciplinary graduate programs including biotechnology, nanomedicine, immunology, health informatics, and drug discovery

Network with local residents and other Northeastern fellows via professional development programs, teaching seminars, and participation on fellowship committees

OUR PARTNER COMPANIES

SINCE 2015

Through these exciting partnerships, Northeastern fellows collaborate and learn from each other, further positioning them to be successful in both academic and industry settings. Fellows are empowered to shape their experience, as well as the future of the program, through leadership on the Professional Development & Networking and Recruitment committees.

BOSTON, MA:

Northeastern University is in the heart of Boston, steps away from the famous Fenway Park and downtown Boston. Surrounded by top tier academic and research institutions, the area is home to pioneers of innovation who are committed to intellectual curiosity and scientific advancement. The greater Boston area is a cultural hub, offering world-class attractions and rich history.

Northeastern University Pharmaceutical Industry Fellowships

APPLICATION REQUIREMENTS

Fellows are selected on a nationally competitive basis. Unless otherwise noted in the position description, candidates must have a Doctor of Pharmacy degree from an ACPE-accredited college of pharmacy by June 30, 2025. Candidates must apply through [Northeastern's career portal](#) and are encouraged to do so by the priority application deadline of October 31, 2024.

Step 1: Application	Step 2: Interviews	Step 3: Final Round Interviews & Offers
<ul style="list-style-type: none">Fellowship position postings go live on September 16, 2024. We will cross-post positions on ASHP's PPS website.Complete the application by October 31, 2024, for priority consideration for first-round interviews.	<ul style="list-style-type: none">Phone screenings and initial interviews will be conducted with eligible candidates starting in early October into November.After the priority deadline, interviews will be conducted with both the sponsor company and Northeastern University.	<ul style="list-style-type: none">Final round interviews will take place virtually or in person during ASHP Midyear in New Orleans, LA. Visit midyear.ashp.org for event details.Northeastern University, in conjunction with the Alliance of Industry Fellowship Associates (AIFA), has agreed to extend offers for fellowships no earlier than December 16, 2024.

Applications are reviewed on a rolling basis – apply early!

Application Materials:

- Curriculum Vitae (CV)
- Unofficial PharmD Transcript
- Cover Letter

3 Letters of Recommendation:

- Highly encouraged to submit by **October 31, 2024**
- Official Deadline: **November 22, 2024**
- Email: PharmDFellowships@northeastern.edu
- Letter writers should submit one letter per candidate and indicate the companies of interest in the subject or body of the email

ADDRESS YOUR COVER LETTER AND 3 LETTERS OF RECOMMENDATION TO:

J. Andrew Orr-Skirvin, PharmD, BCOP
Clinical Professor, School of Pharmacy
Chair, Department of Pharmacy & Health System Sciences
Director of Pharmaceutical Industry Fellowship Program
360 Huntington Ave, 140TF R218
Boston, MA 02115
